John Muir's Last Journey Sep 07 2020 "I am now writing up some notes, but when they will be ready for publication I do not know... It will be a long time before anything is arranged in book form." These words of John Muir, written in June 1912 to a friend, proved prophetic. The journals and notes to which the great naturalist and environmental figure was referring have languished, unpublished and virtually untouched, for nearly a century. Until now. Here edited and published for the first time, John Muir's travel journals from 1911-12, along with his associated correspondence, finally allow us to read in his own words the remarkable story of John Muir's last great journey. Leaving from Brooklyn, New York, in August 1911, John Muir, at the age of seventy-three and traveling alone, embarked on an eight-month, 40,000-mile voyage to South America and Africa. The 1911-12 journals and correspondence reproduced in this volume allow us to travel with him up the great Amazon, into the jungles of southern Brazil, to snowline in the Andes, through southern and central Africa to the headwaters of the Nile, and across six oceans and seas in order to reach the rare forests he had so long wished to study. Although this epic journey has received almost no attention from the many commentators on Muir's work, Muir himself considered it among the most important of his life and the fulfillment of a decades-long dream. John Muir's Last Journey provides a rare glimpse of a Muir whose interests as a naturalist, traveler, and conservationist extended well beyond the mountains of California. It also helps us to see John Muir as a different kind of hero, one whose endurance and intellectual curiosity carried him into far fields of adventure even as he aged, and as a private person and family man with genuine affections, ambitions, and fears, not just an iconic representative of American wilderness. With an introduction that sets Muir's trip in the context of his life and work, along with chapter introductions and a wealth of explanatory notes, the book adds important dimensions to our appreciation of one of America's greatest environmentalists. John Muir's Last Journey is a must reading for students and scholars of environmental history, American literature, natural history, and related fields, as well as for naturalists and armchair travelers everywhere.

The Eden Trilogy Feb 10 2021 Discover the thrilling and evocative #1 New York Times bestselling Eden trilogy as never before with this beautifully designed collection from the visionary author

and digital creator Joey Graceffa. In *Children of Eden*, meet Rowan—a second child in a future world where population control makes her an outlaw. She can never go to school, make friends, or get the eye implants that will mark her as a true member of Eden. Hidden by her family for sixteen years, she recklessly escapes for what she swears will be only one night of adventure. Though she finds an exotic world, and even a friend, the night leads to tragedy and forces Rowan to become a renegade on the run. In *Elites of Eden*, she discovers there is more to her destiny than merely running and hiding. Her fate is mysteriously tied to Yarrow—an elite: rich, regal, and intended for greatness. Rowan's life is one wild party after another in Eden...until she meets a fascinating, lilac-haired girl named Lark. When these two girls discover the thread that binds them together, the collision of memories means that their lives may change drastically—and that Eden may never be the same. In the unforgettable finale *Rebels of Eden*, Rowan is finally in Harmonia—a sustainable commune in the wilderness she always thought was dead. She may be safe, but she's determined to rescue the loved ones she left behind. Though her friends are in terrible danger, her pleas for help are ignored until a shocking reminder of her past pushes her to infiltrate Eden. What she discovers is even worse than the situation she left behind. In the chaos of civil war, Rowan and her friends join forces with the second children and other rebels trapped inside. They fight for their lives, and for the fate of humanity in this broken Earth.

Systems Approaches to Making Change: A Practical Guide Dec 23 2021 The five approaches outlined in this book offers the systems thinking practitioner a range of interchangeable tools for pro-actively making systemic improvements amidst complex situations of change and uncertainty. Practitioners from all professional domains are increasingly confronted with incidences of systemic failure, yet poorly equipped with appropriate tools and know-how for understanding such failure, and the making of systemic improvement. In our fragile Anthropocene world where 'systems change' is often invoked as the rallying call for purposeful alternative action, this book provides a toolkit to help constructively make systems that can change situations for the better. *Systems Approaches* offers an excellent introduction for those seeking to understand systems thinking and to enact systems thinking in practice. The book helps practitioners from all professions to better understand inter-relationships, engage with multiple perspectives, and reflect on boundary judgements that can inhibit or enhance improved purposeful change. After an editorial introduction to these systems thinking in practice capabilities, successive chapters illustrate five systems approaches, each chosen for having a rigorous though adaptable framework, and a robust long pedigree of application in complex situations. Each chapter illustrates what the approach is about, followed by invaluable tips and insights from experience regarding how the tools might be practiced. Amongst updates from originating authors for this 2nd edition, each approach has an accompanying postscript on some developments since the 1st edition.

Nod Aug 31 2022 "And Cain left the presence of the Lord, and dwelt in the land of Nod, on the east of Eden." - Genesis 4:16 Nod is never mentioned again in the Bible. Where was it? Where did the people of Nod come from? What became of Cain? Now we have the story of Nod, as told through the eyes of Lailah, the first person to encounter Cain outside of his family. The story of Cain and Abel is brought alive, and the aftermath examined in a way never before told. But more than that we get the story of a primitive people becoming aware of the world around them.

A History of Kitchener, Ontario Jun 24 2019 William V. Uttley's outline of Kitchener's growth from the 1840's into 20th century [is] shot through with a reassuring consistency and integration of purpose The complex of life as we still know it--social freedom and social restraint, economy and ecology--has its genesis here in the account compiled by William Uttley. His work comes as close to a personal anecdotal history of the city as we can hope to retrieve, a spotted chronicle of a community that can never exist again, and one in which almost every reader will find a point where past confronts present as nostalgia tugs against progress.

[Statistical Downscaling and Bias Correction for Climate Research](#) Jul 26 2019 Statistical downscaling and bias correction are becoming standard tools in climate impact studies. This book provides a comprehensive reference to widely-used approaches, and additionally covers the relevant user context and technical background, as well as a synthesis and guidelines for practitioners. It presents the main approaches including statistical downscaling, bias correction and weather generators, along with their underlying assumptions, skill and limitations. Relevant background information on user needs and observational and climate model uncertainties is complemented by concise introductions to the most important concepts in statistical and dynamical modelling. A substantial part is dedicated to the evaluation of regional climate projections and their value in different user contexts. Detailed guidelines for the application of downscaling and the use of downscaled information in practice complete the volume. Its modular approach makes the book accessible for developers and practitioners, graduate students and experienced researchers, as well as impact modellers and

decision makers.

Environmental Factors, Genes, and the Development of Human Cancers Apr 14 2021 Cancer is a complex disease. Only 5-10% of human cancers are hereditary in nature. Many of us think of environmental agents when we think of carcinogens. The environment includes all that surrounds us, and environmental influences include not only chemical, physical and biological toxicants, but also diet and lifestyle. In this broadest sense, the environment contributes substantially in the development of human cancer. This book will describe how environment contributes to malignant transformation leading to profound changes in the genetic and signaling networks that control the functioning of the cell. It will critically discuss the understanding of the effects of environment on the development, progression and metastasis of cancer with current knowledge of the signaling networks that support functioning of transformed human cells. Genes and environmental factors that influence the origins of cancer are not necessarily the same as those that contribute to its progression and metastasis. Susceptibility gene variants for each specific cancer are being identified with emerging evidence of gene–environment interaction. Gene-environment interactions will be discussed through each specific cancer-based approach to address the question of how genetic variations can influence susceptibility to the individual type of cancer. It will also highlight and summarize epigenetic changes that increase the risk for susceptibility to a particular type of cancer, particularly in the presence of specific environmental factors. Thus, this book will contain chapters from the world's experts focused on the current evidences that support the role of environment in the cancer etiology and in the growth of malignant lesions, and discuss who may be susceptible to environmental influences.

Out of Eden Mar 14 2021 Out of Eden contributes towards conversations about interpreting scripture. Rather than adopting traditional views (creation and 'fall' or growth), this study integrates literary-critical theories and feminist scholarship to read the Genesis narrative in relation to concerns of contemporary communities. The question of how we might engage the interpretative process and the rhetorical power of texts as we live our lives 'out of Eden' is addressed. Stratton argues that the interpretation of Genesis 2-3 matters, that there are consequences for the actions we take on the basis of our interpretations, and that we should enter the interpretative process only with care.

Becoming Princess Eden Jun 16 2021 A DRAMA FILLED CLEAN ROMANCE AD 2135, Saved America: Eden, a girl ripped from her post-revolutionary American life, can see no good outcome for her predicament. Gideon, a second-in-line prince who's fallen from grace, may be her only option. How will these two lost souls find each other? With a single knock on the door, Eden's sheltered world is turned upside down. She's kidnapped and taken to a dubious school in a secret location where she must learn to be a proper wife. But is it a school or a prison? She can't leave for years-not until the man who's purchased her as his bride comes to claim her-and she finds herself in a fight for an unknown prize, competing against an unseen foe. Prince Gideon, whose

parents have secretly arranged their match, lives on the other side of the world and isn't even aware of Eden's existence. The prince is occupied with the beautiful Angel, who's a lot less angelic than he thinks. When Gideon's relationship with Angel gets him thrown out of the palace, he is ashamed and without hope. Eden may be the only way to fix his mistakes. Can Eden survive the enemies at her new school? Can Gideon redeem himself? Will Gideon ever meet the one chosen for him?

Outside of Eden Aug 07 2020 This study is an examination of the principal ancient translations of Gen. 4.1-16 in the Hebrew Bible. The goal is to understand the translation techniques adopted by the translators, to what extent external influences may have affected their work, and how each version communicates its message through its literary form. In addition to the versional renderings of the Hebrew text, this inquiry also takes into account various ancient Jewish and Christian interpretations of the Cain narrative. The primary focus of the work is on the diverse exegetical tendencies of Hebrew Bible translation in the ancient world and on how these interpretations were transmitted in particular cultural milieus.
