Zinnophobia Dec 13 2020 Zinnophobia offers an extended defense of the work of radical historian Howard Zinn, author of the bestselling *A People's History of the United States*, against his many critics. It includes a discussion of the attempt to ban Zinn's book from Indiana classrooms; a brief summary of Zinn's life and work; an analysis of Zinn's theorizing about bias and objectivity in history; and a detailed response to twenty-five of Zinn's most hostile critics, many of whom are (or were) eminent historians. 'A major contribution to bringing Zinn's great contributions to even broader public attention, and exposing features of intellectual and political culture that are of no little interest.' Noam Chomsky

Dressed for War Sep 09 2020 Men in khaki and grey squatting in the trenches, women at work, gender bending in goggles and overalls over their trousers, a girl at the Paris theatre in pleated, beaded silk, a bangle on her forearm made from copper fuse wire from the Somme. What people wear matters. Copiously illustrated, this book is the story of what people on both sides wore on the front line and on the home front through the seismic years of World War I. Nina Edwards, reveals fresh aspects of the war through the prism of the smallest details of personal dress, of clothes, hair and accessories, both in uniform and civilian wear. She explores how, during a period of extraordinary upheaval and rapid change, a particular preference for a type of razor blade or perfume, say, or the just-so adjustment to the tilt of a hat, offer insights into the individual experience of men, women and children during the course of World War I.

1915: The Death of Innocence Dec 01 2019 By Christmas 1915, the wild wave of enthusiasm that had sent men flocking to join up a few months earlier had begun to tail off, and though the Regulars of the original Expeditionary Force had suffered 90 percent casualties, most, particularly the soldiers themselves, still believed that 1915 would see the breaking of the deadlock. Their hopes were shattered on the bloody battlefields at Neuve Chapelle, at Ypres, at Loos, and far away on the shores of Gallipoli. Generals failed to understand the importance of heavy howitzers and machine guns, convinced that wars were won by the cavalry. They could not imagine a war in which hundreds of advancing troops could be wiped out in minutes by machine-gun fire. As disillusionment began to set in and grim resolve replaced easy optimism, innocence was among the casualties in the trenches that ran through the Flanders swamps. The story of 1915 is stark, brutal, frank, sometimes painfully funny, always human. Above all, it is history from the ground up, told from the point of view of the men themselves. Never before has any writer collected so many firsthand accounts of the experiences of ordinary soldiers, through diaries, letters, and interviews with survivors--and it is the dogged heroism and sardonic humor of the soldiers that shine through the pages of Lyn Macdonald's epic narrative. 1915: The Death of Innocence is a uniquely compelling blend of military history and poignant memories of the fighters who survived the ordeal.
