The Saints of Salvation May 03 2020 With refreshing determination and hopeful grit, humanity activates a bold endgame against an alien invasion in the finale of a series heralded as “a modern classic” (Stephen Baxter) from “one of the finest writers the genre has produced” (Gareth L. Powell). Humanity is struggling to hold out against a hostile takeover by an alien race that claims to be on a religious mission to bring all sentient life to its God at the End of Time. But while billions of cocooned humans fill the holds of the Olyix’s deadly arkships, humankind is playing an even longer game than the aliens may have anticipated. From an ultra-secret spy mission to one of the grandest battles ever seen, no strategy is off the table. Will a plan millennia in the making finally be enough to defeat this seemingly unstoppable enemy? And what secrets are the Olyix truly hiding in their most zealously protected stronghold? With his trademark optimism about humanity’s tenacity and capacity for greatness, Peter F. Hamilton wraps up this brilliant saga with a bang—and reminds us why freedom of choice is the most important freedom there is.

The God Chasers Sep 06 2020 A God chaser is a person whose passion for God's presence presses him to chase the impossible in hopes that the uncatchable might catch him. A child chases a loving parent until, suddenly, the strong arms of the father enfold the chaser. The pursuer becomes the captive; the pursued the captor. Paul put it this way: "I chase after that I may catch that which apprehended me" (Phil. 3:12). Job was a God chaser. He said, "Oh that I knew where I might find Him!" David was one; he said, "My soul followeth hard after Thee." Paul was one too: "That I may know Him..." The passionate paths of God chasers can be traced across the pages of history from Moses the stutterer, David the singer, and Paul the itinerant preacher, to contemporaries like A.W. Tozer, Leonard Ravenhill, and countless others who share one common bond: an insatiable hunger to know their Lord. These are people whose relentless, passionate pursuit of Christ often made them appear foolish in the eyes of others. Yet, having tasted His goodness and glimpsed the invisible, they could be satisfied with nothing less. Add your name to the list...become a God chaser. Who know? You might be one whom He catches.

With each tale, K-Ming Chang gives us her own take on a surrealism that mixes myth and migration, corporeality and ghostliness, queerness and the quotidian. Stunningly told in her feminist fabulist style, these are uncanny stories peeling back greater questions of power and memory.

In April 2019, the Event Horizon Telescope Team unveiled the first ever image of a super massive black hole. They would need a telescope as big as the earth itself. The technology simply didn't exist. Based off extensive research and hours interviews with many of the team's ground-breaking scientist, physicists, and mathematicians, *Black Hole Chasers* is a story of unique technological innovation and scientific breakthroughs, but more importantly, it's a story of human curiosity and triumph.

Great North Road Oct 27 2019 **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY PUBLISHERS WEEKLY** New York Times bestselling author Peter F. Hamilton's riveting new thriller combines the nail-biting suspense of a serial-killer investigation with clear-eyed scientific and social extrapolation to create a future that seems not merely plausible but inevitable. A century from now, thanks to a technology allowing instantaneous travel across light-years, humanity has solved its energy shortages, cleaned up the environment, and created far-flung colony worlds. The keys to this empire belong to the powerful North family—composed of successive generations of clones. Yet these clones are not identical. For one thing, genetic errors have crept in with each generation. For another, the original three clone "brothers" have gone their separate ways, and the branches of the family are now friendly rivals more than allies. Or maybe not so friendly. At least that's what the murder of a North clone in the English city of Newcastle suggests to Detective Sidney Hurst. Sid is a solid investigator who'd like nothing better than to hand off this hot potato of a case. The way he figures it, whether he solves the crime or not, he'll make enough enemies to ruin his career. Yet Sid's case is about to take an unexpected turn: because the circumstances of the murder bear an uncanny resemblance to a killing that took place years ago on the planet St. Libra, where a North clone and his entire household were slaughtered in cold blood. The convicted slayer, Angela Trameló, has always claimed her innocence. And now it seems she may have been right. Because only the St. Libra killer could have committed the Newcastle crime. Problem is, Angela also claims that the murderer was an

alien monster. Now Sid must navigate through a Byzantine minefield of competing interests within the police department and the world's political and economic elite . . . all the while hunting down a brutal killer poised to strike again. And on *St. Libra*, Angela, newly released from prison, joins a mission to hunt down the elusive alien, only to learn that the line between hunter and hunted is a thin one. **BONUS:** This edition includes an excerpt from Peter F. Hamilton's *The Abyss Beyond Dreams*. Praise for *Great North Road* "A mesmerizing page-turner."—*Publishers Weekly* (starred review) "A gripping saga that blends wilderness survival, police procedural, political and social intrigue, and dynastic sf into a mammoth tale featuring believable characters and exceptionally skilled storytelling."—*Library Journal* (starred review) "A perfect introduction to [Hamilton's] gifts for character design, dialogue, and sheer, big-idea-driven storytelling."—*Booklist* (starred review) "Compelling and original . . . an awesome novel [with] plenty of action."—*SFRevu* "One very compelling and entertaining science fiction novel."—*SF Site* "Simply brilliant . . . an astonishing achievement."—*Tor.com*

The Dark Side of the Light Chasers Sep 30 2022 *The bestselling, beloved classic on how to go into the dark side of yourself to bring out the light -- now with new material.* Debbie Ford believes that we each hold within us a trace of every human characteristic that exists, the capacity for every human emotion. We are born with the ability to express this entire spectrum of characteristics. But, Ford points out, our families and our society send us strong messages about which ones are good and bad. So when certain impulses arise, we deny them instead of confronting them, giving them a healthy voice, then letting them go. It is to these feelings that Ford turns our attention, these parts of our selves that don't fit the personae we have created for the rest of the world. She shows us the effects of living in the dark, of keeping all our supposedly unsavory impulses under wraps. We find ourselves disproportionately frustrated and angry at the selfishness of friends, the laziness of colleagues, the arrogance of siblings. When we are unable to reconcile similar impulses in ourselves, Ford explains, we waste our own energy judging others instead of empathizing. But most important, we deny ourselves the power and freedom of living authentically. Through the stories and exercises in *The Dark Side of the Light Chasers*, Debbie Ford shows us not only how to recognize our hidden emotions, but also how to find the gifts they offer us. This is for fans of Marianne Williamson, Neale Donald Walsch, and Deepak Chopra. The very impulses we most fear may be the key to what is lacking in our lives.

The realities of the life we live today are a result of the choices we made yesterday, three months ago and three years ago. But we don't wind up \$50,000 dollars in debt because of one extravagant purchase. Nor do we put on 30 unwanted pounds as a result of a couple of decadent meals. And our relationships certainly don't fall apart overnight because of one decision. We are where we are because of repeated unconscious choices made day after day. If we want to understand why and how we created our present day reality, all we need to do is look at the choices we made in the past. Ford cuts right through our denial with the 10 questions that immediately reveal the true motivations behind our thoughts and actions. The Shadow Effect LP Apr 25 2022 Deepak Chopra, Debbie Ford, and Marianne —New York Times bestselling authors and internationally acclaimed teachers—have joined together to share their knowledge on one of the most crucial obstacles to happiness we face—the shadow. These three luminaries, each with a signature approach, bring to light the parts of ourselves we deny but that still direct our life. For it is only when we embrace our shadow that we discover the gifts of our authentic nature. The shadow exists within all of us. It is a part of us and yet we spend most of our life running from it. But far from being scary, our dark side holds the promise of a better, more fulfilling life. Our shadow makes itself known every day. It is the reason we get furious over a friend showing up ten minutes late, yell at our parents or kids when they have done nothing wrong, and sabotage our own success at the worst possible time. Until we are able to embrace our dualistic nature, we will continue to hurt ourselves and those closest to us and fall short of our potential. Combining the wisdom of three experts, The Shadow Effect is a practical and profound guide to discovering the gifts of our shadow. These three authors powerfully pierce the veil of our unclaimed self, releasing us from the past and propelling us on a journey to wholeness. No longer living a half life, we are capable of achieving our dreams and reclaiming the happiness that is our birthright.
