Translation Activity in Late Byzantine World Feb 01 2020

During the late Byzantine period (1261-1453), a significant number of texts were translated from Latin, but also from Arabic and other languages, into Greek. Most of them are still unedited or available in editions that do not meet the modern academic criteria. Nowadays, these translations are attracting scholarly attention, as it is

widely recognized that, besides their philological importance per se, they can shed light on the cultural interactions between late Byzantines and their neighbours or predecessors. To address this desideratum, this volume focuses on the cultural context, the translators and the texts produced during the Palaeologan era, extending as well till the end of 15th c. in ex-Byzantine territories. By shedding light on the translation activity of late Byzantine scholars, this volume aims at revealing the cultural aspect of late Byzantine openness to its neighbours.

Forms and Meanings Oct 30 2019 A collection of four

studies (three of which were given as the 1994 U. of Pennsylvania Rosenbach Lectures), each addressing how the forms that transmit text to readers or hearers constrain the production of meaning. Paper edition (unseen), \$12.95. Annotation copyright by Book News, Inc., Portland, OR
65 Years of the FAO Library, 1952-2017 Aug 09 2020 The Story of the FAO Library - 65th Anniversary 1952-2017 is a journey through the events that led to what has become one of the world's finest collections of materials (both digital and print) on food, agriculture and international development. Today, the library is the depository of over one and a

half million volumes, plus a collection of 400 rare books, 32 incunabula (books printed before 1501) and thousands of digital publications. Its origins lie in the International Institute of Agriculture (IIA), founded in Rome in 1905 by King Vittorio Emanuele III to defend and modernize agriculture, with the encouragement of David Lubin, an American citizen and passionate promoter of agricultural knowledge. Lubin committed to creating and developing the Institute's library, soon the reference point for research centres, governments and other agencies specialized in agricultural matters. In the aftermath of World War II, the

legacy of the IIA and its unique library were closely safeguarded by FAO. FAO's library, which officially opened in 1952, was named after Lubin "in recognition of the foresight, leadership, and outstanding contribution ... to international co-operation in the field of agriculture." This publication unveils the library's precious collections, ranging from those inherited from the Marquise Raffaele Cappelli, second President of the IIA, to the atlases, periodicals, yearbooks and even an edition of Alexander von Humboldt's Cosmos from the Centre International de Sylviculture collection. The publication's text is accompanied by

photographs and images taken from the archives, showing rare pieces ranging from the incunabula to exquisite hand-drawn illustrations. And what about today? Already as of the 1970s, the library had embarked on digitalization, providing access to technologies and supporting libraries in some 90 developing countries via FAO's decentralized offices. As the book reveals, the Library continues to rise to the digital challenge, maintaining its pivotal role in knowledge dissemination.

Au-dessus de la mêlée

(L'édition intégrale) Jan 14

2021 Ce livre numérique présente "Au-dessus de la mêlée (L'édition intégrale)" avec une table des matières dynamique et détaillée. Notre édition a été spécialement conçue pour votre tablette/liseuse et le texte a été relu et corrigé soigneusement. Romain Rolland (1866-1944), est un écrivain français, lauréat du Prix Nobel de littérature en 1915. Au-dessus de la mêlée

est un texte sur la Première Guerre mondiale publié en 1914, c'est l'opiniâtreté de Rolland dans sa lutte contre la guerre. Son exigence de justice le poussa à rechercher la paix pendant et après la Première Guerre mondiale. Romain Rolland est l'homme de la fédération des esprits contre la barbarie et sans doute l'un des plus fervents soutiens de la Société des Nations. L'Europe, qui meurt quand ses citoyens s'y entre-déchirent, est pour Romain Rolland plus qu'un Lebensraum (espace vital), mais une cité de l'Exigence morale et spirituelle. Extrait: "Ô jeunesse héroïque du monde ! Avec quelle Joie prodigieuse elle verse son sang dans la terre

affamée ! Quelles moissons de sacrifices fauchées sous le soleil de ce splendide été !... Vous tous, jeunes hommes de toutes les nations, qu'un commun idéal met tragiquement aux prises, jeunes frères ennemis — Slaves qui courez à l'aide de votre race, Anglais qui combattez pour l'honneur et le droit, peuple belge intrépide, qui osas tenir tête au colosse germanique et défendis contre lui les Thermopyles de l'Occident, Allemands qui luttez pour défendre la pensée et la ville de Kant contre le torrent des cavaliers cosaques, et vous surtout, mes jeunes compagnons français, qui depuis des années me confiez

vos rêves et qui m'avez envoyé, en partant pour le feu, vos sublimes adieux, vous en qui refleurit la lignée des héros de la Révolution — comme vous m'êtes chers, vous qui allez mourir !....."

Biblioteca escolar y desarrollo de colecciones May 18 2021

Las bibliotecas escolares cumplen un papel fundamental dentro del mundo de las bibliotecas, son el primer acercamiento que los niños y jóvenes tendrán con este tipo de institución. El contar con una biblioteca escolar atractiva y eficiente hará que esos niños y jóvenes se vuelvan usuarios frecuentes de las bibliotecas, les dará un aprendizaje para la vida que les será útil a lo largo

de toda su historia. Por otro lado, son una pieza fundamental de apoyo al aprendizaje. (...) En este libro se encontrarán conceptos básicos de selección y políticas de desarrollo de colecciones que facilitarán la construcción de una colección balanceada que apoye el currículo de la escuela a la que pertenece la biblioteca. Dentro de este marco también se encontrarán diversos criterios de selección de libros infantiles, criterios para libros de ficción e informativos, criterios de acuerdo a la edad y criterios paratextuales, textuales y extratextuales. (...) La intención es que este texto apoye a docentes de la carrera

de Bibliotecología, a los bibliotecólogos que no tienen experiencia en bibliotecas escolares y a los maestros que se desempeñan como bibliotecarios y no tienen formación bibliotecológica.

Prácticas de las bibliotecas universitarias argentinas

Apr 16 2021 Las practicas de las bibliotecas universitarias argentinas del sector publico y privado, involucradas en el proceso de comunicacion academica, se estudian a partir de sus representaciones en los sitios web de bibliotecas, con el objeto de indagar acerca de las tensiones que se desarrollan dentro de dicho proceso y que posibilitan determinar como se

aborda la imagen de la biblioteca, como se representa la produccion de conocimiento cientifico y como se establece el dialogo con los usuarios. El analisis de los elementos mencionados permite establecer un contraste entre el discurso del modelo de biblioteca universitaria (que se quiere ser?) su materializacion mediante las practicas de acceso a la produccion cientifica (que se ofrece?) y la relacion establecida entre la institucion biblioteca y la comunidad universitaria (como se comunica?)."

Evaluación del impacto de

las bibliotecas escolares en España Aug 28 2019 En esta tesis se aborda la evaluación del impacto de las bibliotecas en su dimensión educativa, utilizando la norma ISO 16439 sobre impacto bibliotecario como marco conceptual y guía metodológica. Se desarrolla una investigación sobre el impacto de las bibliotecas escolares empleando un enfoque metodológico que integra una doble visión cuantitativa y cualitativa. Como objetivo general, se pretende evaluar la contribución de las bibliotecas escolares al sistema educativo en España. Se analizan tres niveles de impacto: 1) impacto sobre los individuos (se incluye el efecto

sobre las habilidades y competencias, sobre las actitudes y comportamientos, sobre el bienestar individual, y sobre la carrera académica y profesional a medio y largo plazo); 2) impacto sobre la comunidad o institución de la que depende la biblioteca; y 3) impacto sobre el conjunto de la sociedad. Para explicar estos tres niveles de impacto, se plantean once preguntas de investigación. Para la realización de la investigación cuantitativa se emplean los conjuntos de datos de los estudios internacionales PIRLS 2016 (para el alumnado de educación primaria) y PISA 2009 (para el alumnado de educación secundaria),

seleccionando los datos correspondientes a España. Para la realización de la investigación cualitativa se emplea un estudio de caso centrado en la biblioteca del CEIP Virrey Morcillo (Villarrobledo, Albacete), integrada en una red cooperativa de bibliotecas escolares, el Grupo Cooperativo Bibliotecas Escolares en Red - BERED- de Albacete. Los datos corroboran que la biblioteca escolar contribuye a mejorar la competencia lectora general del alumnado y las distintas dimensiones de esta competencia, especialmente la informacional. El recurso más valorado es la colección

bibliográfica, combinada con el trabajo por proyectos e integrada en las actividades formativas y de animación a la lectura programadas desde un plan de lectura. La biblioteca escolar contribuye a producir cambios de carácter intangible en las actitudes y en el comportamiento, especialmente sobre la motivación de alumnado y profesorado, y favorece la implicación de las familias en el proceso de aprendizaje. El alumnado interioriza valores y normas de convivencia y refuerza su sentido de pertenencia; se refuerza la formación del profesorado y se da visibilidad a la labor docente. Respecto a la

influencia de la biblioteca sobre la institución de la que depende, contribuye a que se cumplan los fines y objetivos educativos, en torno a tres ejes principales: 1) apoya los objetivos de enseñanza y aprendizaje, incluyendo el refuerzo curricular y la implantación de nuevas metodologías de trabajo y aprendizaje con el uso de las nuevas tecnologías; 2) refuerza la cohesión entre los miembros de la comunidad educativa en torno a los objetivos y proyectos comunes, potenciando valores comunitarios y de convivencia y actuando como un compensador de desigualdades; y 3) contribuye

a establecer redes de cooperación. Respecto de la influencia de la biblioteca escolar sobre su entorno social próximo, se observa la colaboración con otras entidades educativas y culturales en redes de cooperación. Descripción / Resumen (Inglés): This research deals with the school libraries impact evaluation, by adopting the international standard on library impact ISO 16439 as a conceptual framework and methodological guide. The main objective of this research is to evaluate the contribution of school libraries to the educational system in Spain, by combining both quantitative and qualitative

methodological approaches. According to ISO 16439, three areas of library impact are analysed: 1) impact on individuals {including changes in skills and competences, changes in attitudes and behaviour, higher success in study or career and individual well-being}; 2) impact on the library's institution or community; and 3) impact on society. Firstly, we used the Spanish datasets released from the PISA 2009 and PIRLS 2016 international studies to perform the quantitative analysis. Then, average results on reading literacy of two different groups were compared: pupils that have access to library resources and

use them, and those pupils that don't have access to library resources or, even if they could, they hardly use them. Secondly, a case study which is focused on a Spanish school library is performed. The school library from the Virrey Morcillo Primary School {Villarrobledo, Albacete, Spain) forms part of a school library network: the Grupo Cooperativo Bibliotecas Escolares en Red - BERED- {Albacete). The results confirm that school library is perceived as an efficient resource which contributes to improve reading literacy skills, especially those informational skills. Also, it is perceived to foster related competencies, i.e., critical

thinking, creativity, digital skills and communicative and linguistic skills. The quality of library collection is the most valued library resource, when it is used in specific projects and when formative and reading promotion activities are planned. Also, the school library encourages changes in attitudes and behaviour. It is perceived to foster pupils and teacher's motivation. Moreover, it is considered to encourage the family's involvement in pupils' learning process. Pupils learn values and behavioural rules and strengthen their sense of belonging towards their school. Also, it is perceived to give visibility to educational work.

As for the impact on the library's institution or community, it is perceived to contribute to the achievement of educational goals and objectives: 1) it gives support to learning and teaching objectives, including curricular enhancement, learning and teaching methodologies and working with new technological resources; 2) it fosters cohesion among all learning community members and helps equity; 3) it helps create cooperative alliances and networks. Concerning the impact on the society, it is perceived that the school library collaborates with other learning and cultural entities for cooperation projects.

The Interpretation of the Bible
May 06 2020 This unique
volume, nearly 2000 pages in
length and handsomely printed
on Bible paper, is perhaps the
most comprehensive scholarly
work of our time on the
translation and interpretation
of the Bible. At its core are
papers presented to an
international symposium in
Ljubljana in September 1996 to
mark the publication of the
new Slovenian version of the
Bible, a landmark in Slovene
identity and cultural life. In
addition, its distinguished

editor, Joze Krasovec, has commissioned a wide range of contributions devoted to translations of the Bible in many languages, including the Slavonic languages, Croatian, Czech, Hungarian, Polish and the Scandinavian languages. The 82 chapters in this work, mostly in English, are divided into three parts. Part I, on ancient translations and hermeneutics of the Bible, contains contributions by M.-E. Boismard, S.P. Brock, K.J. Cathcart, R.P. Gordon, L.J. Grech, M. Hengel, O. Keel, J. Lust, E. Tov and others, with a notable comprehensive bibliographic survey of oriental Bible translations from the first millennium by M. van

Esbroeck. Part II, on Slavonic and other translations of the Bible, includes the first detailed study of the history of the Slavonic Bible, by Francis J. Thomson (over 300 pp.). Part III, with essays by such scholars as J.H. Charlesworth, D.J.A. Clines, J. Gnilka, M. G÷rg, N. Lohfink and A.C. Thiselton, concerns the interpretation of the Bible in translation, philosophy, theology, art and music. In an appendix, a complete list of printed Bibles in languages throughout the world is presented for the first time. *Temas de Biblioteconomia Universitaria y General* Aug 21 2021 *Catalog of Copyright Entries.*

BIBLIOTECAS PÚBLICAS,

NUEVAS TECNOLOGÍAS DE LA INFORMACIÓN: IMPACTO EN EL PERSONAL BIBLIOTECARIO Jul 08 2020
Las bibliotecas públicas tienen un papel ideológico de favorecer las relaciones sociales y con una gran responsabilidad de contribuir a la formación y satisfacción de necesidades e intereses de la comunidad en la cual está inserta. Las tecnologías de la información han introducido cambios tan significativos que las bibliotecas no han podido permanecer ajenas a ellos. Estas han sido y son las motivadoras de cambios en las bibliotecas públicas, por lo que deben ejercer su papel educativo que ayude a otros a

realizar ese cambio como lo son el personal bibliotecario. Las Bibliotecas Públicas permiten disponer de una gran cantidad de recursos de información, nuevas tecnologías de la información y de nuevas formas de comunicación, pero debe asumir su responsabilidad de su transformación en el personal bibliotecario. Por lo que a través de este libro haremos un análisis de las nuevas tecnologías de la información y su incidencia en las bibliotecas públicas y el impacto de éstas en el personal bibliotecario ante el advenimiento de las nuevas tecnologías y de la sociedad de la información; además de

analizar los retos y necesidades a que se enfrentan las bibliotecas públicas y las funciones atribuidas al personal bibliotecario ante las nuevas tecnologías de la información.

La biblioteca pubblica, cantiere cittadino di integrazione Feb 12 2021 L'opera costituisce un'analisi

storica e contemporanea del ruolo sociale e culturale svolto fin dalle prime esperienze a livello nazionale dalla "biblioteca pubblica". Essa, fin dalle origini, ha rappresentato uno spazio aperto alla cittadinanza, costituito non solo da libri e scaffali ma anche dalla volontà di creare un servizio pubblico finalizzato alla creazione di nuovi rapporti sociali e umani. Nella nostra epoca, la biblioteca pubblica assume progressivamente un nuovo valore sociale trasformandosi in luogo d'incontro interculturale per le diverse comunità di migranti che vivono in Europa. Nello studio si vuole evidenziare in particolare la funzione svolta

dalla biblioteca pubblica in differenti contesti urbani e in diversi paesi europei, con un'attenzione maggiore nei confronti di due metropoli, Roma e Amburgo, nelle quali si sono realizzati progetti d'integrazione culturale e sociale a favore di cittadini migranti. In conclusione l'opera vuole porsi uno specifico interrogativo: si può sperare che anche attraverso le biblioteche pubbliche si possa costruire una nuova società plurale orientata a un orizzonte comune?

straddling Australia and Italy over a thirty-year period. As both former colleagues and collaborators of Pagliaro, we editors intend to open a kaleidoscope of perspectives on the international research landscape in the fields of Italian and Anglophone studies, starting from Pagliaro's own contribution to the creation of relations between the two cultures in the period that saw her work transnationally as Director of the Monash University Prato Centre (2005-2008).

2020 The contributions in this volume constitute a selection of the papers presented at the 11th International Colloquium of the West-European (German-based) society for the history of linguistic ideas, the Studienkreis "Geschichte der Sprachwissenschaft". The central theme of the conference was the history of linguistic and grammatical praxis. While this topic served, for the first time, as the central theme of a conference in the history of linguistics, the various types of linguistic

praxis - language teaching and language learning, description and codification of languages, diffusion of linguistic knowledge, language planning and language policies - constitute the first attestation of linguistic preoccupations worldwide. The twenty-seven contributions in this volume cover the history of grammatical and linguistic praxis from Antiquity to the present day. While most of the papers deal with Europe and the United States, some of them analyse linguistic activity in relation to languages in Africa, Asia or Australia.
