**California Dreamin': A 19-year Old Indian Sikh's Memoir: Journey to California, Romance, Trials & Tribulations** Nov 14 2021 California Dreaming is about my journey to America for higher studies in 1961 and my difficult first 2 years. On the way I had a wonderful shipboard romance with Kavita, a tall Indian woman. We parted in Italy and we were heartbroken. Before we could meet in America she had to rush back to India because Grandmother had a heart attack. Later she visited with her mother. The highlight was her trying on a bikini. What a beautiful sight--voluptuous breasts, curvy body, long legs! It was huge turn-on and later we enjoyed passionate lovemaking. Love of my life could not stay and had to return to India. I wondered if I would see her again. College in Indiana was great, but I could not handle snow and California was calling! Driving there in an old car was adventurous. Discrimination was high against a turbaned Sikh. No decent jobs were available to me. Finally I got a job at a packinghouse. It was hard keeping my head above water while studying at Fresno State. Where is Kavita? Are we destined to be together?

After a roller-coaster ride thru fame and fortune from their exploits on Deslar, Andrean & Wayne find a new love with Noneika, a woman from the high gravity world of Torrey 9. *Detox* Aug 19 2019 One hundred and fifty years of advancing technology has done much to promote the success of the human race...or has it? This fast-paced technological thriller may have some clues. Fast forward a century and a half to the platinum age of medicine and an Earth pursuing a large-scale colonization effort on Mars. While the pacemaker may have been one of the first devices implanted in a person, it surely will not be the last. The ever-shrinking integrated circuit will most certainly find its way into our systems. Stem-cell research, in its infancy now, will likely progress into a beneficial method of the prevention and treatment of disease. Like their predecessors, Cancer, AIDS, Ebola and the like will surely be wiped out. Detox is a taught thriller, with mystery, suspense, loads of action, and a dash of romance. Mans inhumanity to man takes center stage in a quest for truth, justice, and retribution. And with the worlds largest corporations, Dual-Planet and Molentel, and the deadly Plasma Virus intertwined in a massive colonization effort on the Red Planet, maybe the bottom line needs to be taken into account.
