India and the Republic of Korea Feb 10 2021 Examining the underlying logic of the strategic and economic partnership between the Republic of Korea and India, this book is the first detailed study of the numerous facets — cultural, economic, people-to-people, and strategic — of blossoming relations between two major Asian democracies. This comprehensive survey documents the interaction between the two governments, relying on facts and hitherto unpublished original records provided by India's Ministry of External Affairs; offers an illuminating account of India's active role as a neutral party in the post-Second World War events of the Korean War and the division of the Korean Peninsula; and provides a vision of the future direction of India-Korea relations. The author also shares candid observations of Korean society and its people during his service as Ambassador of India in Seoul. The work will be useful to policy makers as well as students of politics and international relations, strategic studies, economics, and contemporary world history.

The India Way May 04 2020 The decade from the 2008 global financial crisis to the 2020 coronavirus pandemic has seen a real transformation of the world order. The very nature of international relations and its rules are changing before our eyes. For India, this means optimal relationships with all the major powers to best advance its goals. It also requires a bolder and non-reciprocal approach to its neighbourhood. A global footprint is now in the making that leverages India's greater capability and relevance, as well as its unique diaspora. This era of global upheaval entails greater expectations from India, putting it on the path to becoming a leading power. In *The India Way*, S. Jaishankar, India's Minister of External Affairs, analyses these challenges and spells out possible policy responses. He places this thinking in the context of history and tradition, appropriate for a civilizational power that seeks to reclaim its place on the world stage.
