Reading Genesis Well Apr 14 2021
What does it mean

to be a good reader of Genesis 1-11? What does it mean to take these ancient stories seriously and how does that relate to taking them literally? Can we even take any of this material seriously? Reading Genesis Well answers these questions and more, promoting a responsible conversation about how science and biblical faith relate by developing a rigorous approach

to interpreting the Bible, especially those texts that come into play in science and faith discussions. This unique approach connects the ancient writings of Genesis 1-11 with modern science in an honest and informed way. Old Testament scholar C. John Collins appropriates literary and linguistic insights from C. S. Lewis and builds on them using ideas from modern linguistics

rces/books/a-journal-for-the-hebrew-scriptures/. Origins May 04 2020 Origins turns much of what Christians learned in Sunday School on its head in a revealing comparison of the Genesis narrative to the competing pagan narrative of the day. Relatively few Bible readers are familiar with the world of the ancient Near East, centered in Mesopotamia and its most prominent city, Babylon. The culture, literature, religions, geography, etc. of the early biblical period dramatically influenced what was written and why and without an understanding of these elements, the purposes,

meanings, and structure of the text are easily misread by modern readers and reduces the primeval narrative to a collection of Sunday School stories. Origins, while acknowledging the agendas of modern readers, remains on track in expounding on the ancient agenda. Paul Copan and Douglas Jacoby address the doubts of those who find stumbling blocks in early Genesis, facing the tough questions head on and providing biblical solution to many of the “problem passages.” Origins surprises and amazes all seekers, new believers, and veterans of Scripture alike as it devastates the

polytheistic, pagan assumptions and proclaims the true God.

A Genesis Journal
Mar 26 2022 This book is based on a solid commitment to the truth of God's revelation. We would not know how this world came into being unless God had told us. The sequence of events would remain a mystery without an accurate record of Creation. This book is a retelling of what God has said concerning our creation. The global nature of the first eleven chapters of Genesis reminds us of our insignificance, but on the other hand, the interaction of God with man reflects His assessment of our importance. We are

made in God's image, and that is of great significance. The physical evidence for a cataclysmic destruction somewhere in the earth's history is evident in the rocks and fossils. The biblical record explains the reason, the cause, the duration, and the recovery from this great flood. The record of that year supplies answers to a host of geological questions that would otherwise remain hidden. Likewise, the anthropological insight the Babel event supplies is unparalleled in history. God's Word gives us answers to questions we didn't even know to ask. Finally, regarding our salvation-

Genesis 12 provides us with the document signed by God that is the basis for our redemption. How do we participate in so great a salvation? Read and see.

of the creation narrative in Genesis, John Lennox proposes a succinct method of reading and interpreting the first chapters of Genesis without discounting either science or Scripture. With examples from history, a brief but thorough exploration of the major interpretations, and a look into the particular significance of the creation of human beings, Lennox suggests that Christians can heed modern scientific knowledge while staying faithful to the biblical narrative. He moves beyond a simple response to the controversy, insisting that

Genesis teaches us far more about the God of Jesus Christ and about God's intention for creation than it does about the age of the earth. With this book, Lennox offers a careful yet accessible introduction to a scientifically-savvy, theologically-astute, and Scripturally faithful interpretation of Genesis.

texts. In this book, Nathan J. Chambers forces us to reconsider the question, arguing in favor of reading this chapter of the Bible in terms of ex nihilo creation and demonstrating that there is a sound basis for the early Christian development of the doctrine. Drawing on the theology of Augustine of Hippo and Thomas Aquinas, Chambers considers what the ex nihilo doctrine means and does in classical Christian dogma. He examines ancient Near Eastern cosmological texts that provide a potential context for reading Genesis 1. Recognizing the distance between the possible historical and

theological frameworks for interpreting the text, he illuminates how this doctrine developed within early Christian thought as a consequence of the church's commitment to reading Genesis 1 as part of Christian Scripture. Through original close readings of the chapter that engage critically with the work of Jon Levenson, Hermann Gunkel, and Brevard Childs, Chambers demonstrates that, far from precluding interpretive possibilities, reading Genesis 1 in terms of creation from nothing opens up a variety of interpretive avenues that have largely been

overlooked in contemporary biblical scholarship. Timely and innovative, this book makes the case for a new (or recovered) framework for reading Genesis 1 that will appeal to biblical studies scholars and seminarians. theory to create a methodological framework, which he applies to three Leviticus pericopes. Chapters 11, 16, and 26 are examined in turn, and for each the assessment of potential parallels at lexical, syntactical, and conceptual levels reveals a complex

web of interconnected allusion to the creation and Eden narratives of Genesis 1 and 2-3. Moreover, Harper probes the theological and rhetorical import of these intertextual connections and explores how Leviticus ought to be understood in its

Pentateuchal context. This comprehensive study of the connections between these two sections of the Hebrew Bible sheds light on both the literary artistry of these ancient texts and the persuasive purposes that lie behind their composition.
