**Bad Paper** Dec 29 2019 "The book teems with eccentric characters and scenes that made my skin crawl.... Explained simply, read easily, Bad Paper defies expectations. It should also raise quite a few alarms."-Colin Dwyer, NPR The Federal Trade Commission receives more complaints about rogue debt collecting than it does about any activity besides identity theft. In *Bad Paper*, journalist Jake Halpern reveals why. He tells the story of Aaron Siegel, a former banking executive, and Brandon Wilson, a former armed robber, who become partners and go in quest of "paper"-the uncollected debts that are sold off by banks for pennies on the dollar. As Aaron and Brandon learn, the world of consumer debt collection is an unregulated shadowland, where operators often make unwarranted threats and even collect debts that are not theirs. Introducing an unforgettable cast of characters, Halpern chronicles Aaron and Brandon's lives as they manage high-pressure call centers, hunt for paper in Las Vegas casinos, and meet in parked cars to sell the social security numbers and account information of unsuspecting consumers. The result is a vital exposé on the cost of a system that compounds the troubles of hardworking Americans and an astonishing feat of storytelling.

*Cult Collectors* Jul 04 2020 *Cult Collectors* examines cultures of consumption and the fans who collect cult film and TV merchandise. Author Lincoln Geraghty argues that there has been a change in the fan convention space, where collectible merchandise and toys, rather than just the fictional text, have become objects for trade, nostalgia, and a focal point for fans' personal narratives. New technologies also add to this changing identity of cult fandom whereby popular websites such as eBay and ThinkGeek become cyber sites of memory and profit for cult fan communities. The book opens with an analysis of the problematic representations of fans and fandom in film and television. Stereotypes of the fan and collector as portrayed in series such as *The Big Bang Theory* and films like *The 40 Year Old Virgin* are discussed alongside changes in consumption practices and the mainstreaming of cult media. Following this, theoretical chapters consider issues of gender, representation, nostalgia and the influence of social media. Finally, extended case study chapters examine in detail the connections between the fan community and the commodities bought and sold. Topics discussed include: The San Diego Comic-Con and the cult geographies of the fan convention Hollywood memorabilia and collecting cinema history The Star Wars franchise, merchandising and the adult collector Online stores and the commercialisation of cult fandom Mattel, Hasbro and nostalgia for animated eighties children's television

*Hunting the Collectors* Aug 24 2019 This volume investigates Pacific collections held in Australian museums, art galleries and archives, and the diverse group of 19th and 20th century collectors responsible for their acquisition. The nineteen essays reveal varied personal and institutional motivations that eventually led to the conservation, preservation and exhibition in Australia of a remarkable archive of Pacific Island material objects, art and crafts, photographs and documents. *Hunting the Collectors* benchmarks the importance of Pacific Collections in Australia and is a timely contribution to the worldwide renaissance of interest in Oceanic arts and cultures. The essays suggest that the custodial role is not fixed and immutable but fluctuates with the perceived importance of the collection, which in turn fluctuates with the level of national interest in the Pacific neighbourhood. This cyclical rise and fall of Australian interest in the Pacific Islands means many of the valuable early collections in state and later national repositories and institutions have been rarely exhibited or published. But, as the authors note, enthusiastic museum anthropologists, curators, collection managers and university-based scholars across Australia, and worldwide, have persisted with research on material collected in the Pacific. This volume is a very important one for anyone studying the art and material culture of the Pacific. It focuses on collections now in Australia. Even those well versed in museum collections from the Pacific will learn about many important but little-known collectors as well as better-known figures like the anthropologists F. E. Williams and Thomas Farrell, the husband of Queen Emma. This will be a treat for students and specialist alike. —Professor Robert L. Welsch, University of Dartmouth

*Sex Collectors* Jun 22 2019 Though you might not encounter the subject in Artforum or stumble across it at Sotheby's, the thriving

business of erotica is a mixture of sophistication and seduction, an underground world of eccentric artists and serious collectors. In *Sex Collectors*, Geoff Nicholson hunts down an assortment of these obsessives around the world. From the Florida grandma with five million dollars' worth of sexual collectibles to Third Eye Blind's manager, who owns more than eighty thousand men's magazines, Nicholson celebrates these collectors and the occasionally beautiful, frequently bizarre, and always fascinating objects they have amassed. He accompanies Linda Lovelace, the star of *Deep Throat*, as she is taken on a tour of a collection devoted to her. Days spent in the Kinsey archives reveal the cultural artifacts resulting from the sexual awakening of public America, as well as boxes with labels such as "Phallus with Agricultural Tools" and "Scarf Trick when Folded." Nicholson journeys to Germany to visit with the legendary Karl-Ludwig Leonhardt, sex collector extraordinaire of first edition volumes such as *Flagellation pour couples pervers* and *Tender Bottoms*, erotic Picassos, and notes handwritten by the Marquis de Sade. Throughout his exploration of some of the wildest collections in the world, Nicholson's discussion of collecting as an expression of self and psychology goes hand in hand with his gleeful discovery of the seventh giant phallus used in Stanley Kubrick's *A Clockwork Orange*, Hitler's creepily erotic personalized bookplate, and a woman who has a plaster cast of Jimi Hendrix's penis. *Sex Collectors* is a winning story of one man's attempt to collect collectors, to reveal the neuroses that drive some people to collect, and to have good, dirty, high-minded fun while doing it.

**A Thousand Cuts** Oct 19 2021 A Thousand Cuts is a candid exploration of one of America's strangest and most quickly vanishing subcultures. It is about the death of physical film in the digital era and about a paranoid, secretive, eccentric, and sometimes obsessive

group of film-mad collectors who made movies and their projection a private religion in the time before DVDs and Blu-rays. The book includes the stories of film historian/critic Leonard Maltin, TCM host Robert Osborne discussing Rock Hudson's secret 1970s film vault, RoboCop producer Jon Davison dropping acid and screening King Kong with Jefferson Airplane at the Fillmore East, and Academy Award-winning film historian Kevin Brownlow recounting his decades-long quest to restore the 1927 Napoleon. Other lesser-known but equally fascinating subjects include one-legged former Broadway dancer Tony Turano, who lives in a Norma Desmond-like world of decaying movie memories, and notorious film pirate Al Beardsley, one of the men responsible for putting O. J. Simpson behind bars. Authors Dennis Bartok and Jeff Joseph examine one of the least-known episodes in modern legal history: the FBI's and Justice Department's campaign to harass, intimidate, and arrest film dealers and collectors in the early 1970s. Many of those persecuted were gay men. Victims included Planet of the Apes star Roddy McDowall, who was arrested in 1974 for film collecting and forced to name names of fellow collectors, including Rock Hudson and Mel Tormé. *A Thousand Cuts* explores the obsessions of the colorful individuals who created their own screening rooms, spent vast sums, negotiated underground networks, and even risked legal jeopardy to pursue their passion for real, physical film.

*Brave New World and Brave New World Revisited* Dec 09 2020 *Brave New World* is a dystopian social science fiction novel by English author Aldous Huxley, written in 1931 and published in 1932. Largely set in a futuristic World State, whose citizens are environmentally engineered into an intelligence-based social hierarchy, the novel anticipates huge scientific advancements in reproductive technology, sleep-learning, psychological manipulation and classical conditioning that are combined to make a dystopian society which is challenged by only a single individual: the story's protagonist. Huxley followed this book with a reassessment in essay form, *Brave New World Revisited* (1958), and with his final novel, *Island* (1962), the utopian counterpart. The novel is often compared to George Orwell's *Nineteen Eighty-Four* (published 1949). In 1999, the Modern Library ranked *Brave New World* at number 5 on its list of the 100 best English-language novels of the 20th century. In 2003, Robert McCrum, writing for *The Observer*, included *Brave New World* chronologically at number 53 in "the top 100 greatest novels of all time", and the novel was listed at number 87 on *The Big Read* survey by the BBC. This edition pairs *Brave New World* with *Brave New World Revisited*, Huxley's book about the original novel.
