Eliminating the Achievement Gap Jan 30 2020 Eliminating the Achievement Gap is designed to be the first book to base society's efforts to reduce the achievement gap on meta-analytic analysis. It proposes an interdisciplinary approach to this problem that is rare, refreshing, and insightful, including solutions generally overlooked. **The Noble Savage** Nov 29 2019 In this second volume of the unparalleled exposition of Rousseau's life and works, Cranston completes and corrects the story told in Rousseau's Confessions, and offers a vivid, entirely new history of his most eventful and productive years. "Luckily for us, Maurice Cranston's The Noble Savage: Jean-Jacques Rousseau, 1754-1762 has managed to craft a highly detailed account of eight key years of Rousseau's life in such a way that we can both understand and even, on occasion, sympathize."—Olivier Bernier, Wall Street Journal Maurice Cranston (1920-1993), a distinguished scholar and recipient of the James Tait Black Memorial Prize for his biography of John Locke, was professor of political science at the London School of Economics. His numerous books include The Romantic Movement and Philosophers and Pamphleteers, and translations of Rousseau's The Social Contract and Discourse on the Origins of Inequality. **Jacques Lacan & Co** Jan 12 2021 "Roudinesco provides a finely drawn map of the intellectual debates within French psychoanalysis, especially under the influence of the German emigrés during the 1930s and 1940s. She is a good historian, in that she provides not only a narrative history but also extensive passages from Lacan's own oral-history interviews with the various figures, so that we have not only her commentary but some flavor of the original documentation. Many of the quotes are gems."—Sander I. Gilman, Bulletin of the History of Medicine **Paris Primitive** Aug 31 2022 In 1990 Jacques Chirac, the future president of France and a passionate fan of non-European art, met Jacques Kerchache, a maverick art collector with the lifelong ambition of displaying African sculpture in the holy temple of French culture, the Louvre. Together they began laying plans, and ten years later African fetishes were on view under the same roof as the Mona Lisa. Then, in 2006, amidst a maelstrom of controversy and hype, Chirac presided over the opening of a new museum dedicated to primitive art in the shadow of the Eiffel Tower: the Musée du Quai Branly. Paris Primitive recounts the massive reconfiguration of Paris's museum world that resulted from Chirac's dream, set against a backdrop of personal and national politics, intellectual life, and the role of culture in French society. Along with exposing the machinations that led to the MQB's creation, Sally Price addresses the thorny questions it raises about the legacy of colonialism, the balance between aesthetic judgments and ethnographic context, and the role of institutions of art and culture in an increasingly diverse France. Anyone with a stake in the myriad political, cultural, and anthropological issues raised by the MQB will find Price's account fascinating. **Cryptomimesis** May 04 2020 In the last thirty years the living-dead, the revenant, the phantom, and the crypt have appeared with increasing frequency in Jacques Derrida's writings and, for the most part, have gone unaddressed. In Cryptomimesis Jodey Castricano examines the intersection between Derrida's writing and the Gothic to theorize what she calls Derrida's "poetics of the crypt." **Reading Graphic Novels** Feb 10 2021 This monograph presents a prototype theory-based approach to the graphic novel as a narrating genre. After a historical contextualization, the graphic novel is defined through the core feature of complexity and seven gradable subcategories. With regard to narration, the author challenges concepts from classical narratology like the 'narrator' and 'focalization' to finally discuss aspects of subjectivity, a focal paradigm in the latest research. **Jean-Jacques Rousseau** Nov 21 2021 "Drawing on his deep familiarity with Rousseau's work, Reisert maintains that Rousseau's primary concern was to discover the psychological foundations of virtue, which he understood as the strength of will needed to respect the rights of others. Reisert reconstructs the model of the human soul that underpins Rousseau's account of virtue, a model he considers superior to the alternatives conceived by Aristotle, Hobbes, Locke, Montesquieu, Kant, and Rawls. Rousseau, the author explains, believed that life in modern societies undermines virtue, but that for individuals to thrive, and for free societies to endure, all would require moral education. Rousseau, who styled himself "a friend of virtue," sought to impart virtue to his readers through the examples of his literary characters Emile and Julie." **Focus On: 100 Most Popular Compact Cars** Nov 09 2020

Jean-Jacques Rousseau Apr 02 2020 Offers a critical introduction to the life and work of the eighteenth-century French writer and philosopher.

The Films of Jacques Tati Dec 11 2020 Life never ceases to give homage to Jacques Tati. Be it on a beach, in an old part of town, or in the glamour of a modern city, we find everywhere the gags which have peopled such films as Les Vacances de Monsieur Hulot and Playtime. If a silhouette crosses us at a street corner, we are quickly reminded of certain scenes in Mon Oncle. Tati was a great film comic who deserves to be placed on the same level as Keaton and Chaplin. Tati created Monsieur Hulot who has now entered the world of screen legends. Above all, Jacques Tati was an exemplary artist who was not scared of taking risks or to invest his entire being in the making of his films. From Jour de fete to Parade, there is a Tati-World which this study invites us to discover.

Taking on the Tradition Jun 28 2022 In this volume the author focuses on how the work of Derrida has helped rework the themes of tradition, legacy and inheritance in Western philosophy. It includes readings of Derrida's texts that demonstrate the claims he makes cannot be understood without considering the way in which he makes those claims.

A Vehicle for Change Apr 26 2022 An Open Access edition of this book will be available on the Liverpool University Press website and the OAPEN library. Since its invention, the automobile has been systematically 'consumed', to become part of the fabric of twentieth- and twenty-first-century society, its impact and perception making the car an accurate gauge of changing cultural norms and values. As it grew in popularity, the automobile conditioned the very texture of modern life, and the particularly car-centred society of contemporary France is an especially apt locus for examination. The ubiquity of the automobile across all social strata provides us with a defined lens through which to examine the evolution of French society in the modern and post-modern eras. Taking the Second World War as a pivotal moment in recent French history, this book demonstrates how the automobile was both consumed and fetishized in distinct ways before and after this conflict. The ways in which society evolved from the pre- to the post-war period allow us to view French culture through the prism of the automobile as it embodied technological and social progress in twentieth-century France. The present volume seeks to explore and interrogate the processes of representation and mediation inherent in the evolving patterns of automobile consumption, and their subsequent impacts on local and national identity, framed by a detailed case study centred on France from the late-nineteenth century to the oil crisis of the early 1970s.

Counter-institutions May 16 2021 This book provides a definitive account of Jacques Derrida's involvement in debates about the university. Derrida was a founding member of the Research Group on the Teaching of Philosophy (GREPH), an activist group that mobilized opposition to the Giscard government's proposals to "rationalize" the French educational system in 1975. He also helped to convene the Estates General of Philosophy, a vast gathering in 1979 of educators from across France. Furthermore, he was closely associatedwith the founding of the International College of Philosophy in Paris, and his connection with the International Parliament of Writers during the 1990s also illustrates his continuing interest in the possibility of launching an array of literary and philosophical projects while experimenting with new kinds of institutions in which they might take their specific shape and direction. Derrida argues that the place of philosophy in the university should be explored as both a historical questionand a philosophical problem in its own right. He argues that philosophy simultaneously belongs and does not belong to the university. In its founding role, it must come from "outside" the institution in which, nevertheless, it comes to define itself. The author asks whether this irresolvable tension between "belonging" and "not belonging" might not also form the basis of Derrida's political thinking and activism where wider issues of contemporary significance are concerned. Key questions today concerning citizenship, rights, the nation-state and Europe, asylum, immigration, terror, and the "return" of religion all involve assumptions and ideas about "belonging"; and they entail constitutional, legal, institutional and material constraints that take shape precisely on the basis of such ideas. This project will therefore open up a key question: Can deconstruction's insight into the paradoxical institutional standing of philosophy form the basis of a meaningful political responseby "theory" to a number of contemporary international issues?

Jacques Lacan, Past and Present Oct 28 2019 Prompted by the thirtieth anniversary of the French philosopher Jacques Lacan's death, this exchange between two prominent intellectuals is rich with surprising insights. Alain Badiou shares the clearest, most detailed account to date of his profound indebtedness to Lacanian psychoanalysis. He explains in depth the tools Lacan gave him to navigate the extremes of his other two philosophical "masters," Jean-Paul Sartre and Louis Althusser. Élisabeth Roudinesco supplements Badiou's experience with her own perspective on the troubled landscape of the French analytic world since Lacan's death—critiquing, for example, the link (or lack thereof) between politics and psychoanalysis in Lacan's work, among other issues. Their dynamic dialogue draws readers into an intimate, at times contentious, yet ultimately productive debate that reinvigorates the work of a pivotal twentieth-century thinker.

Jacques and His Master Mar 02 2020 Jacques and His Master is a deliciously witty and entertaining "variation" on Diderot's novel Jacques le Fatalist, written for Milan Kundera's "private pleasure" in the aftermath of the Russian invasion of Czechoslovakia. When the "heavy Russian irrationality" fell on Czechoslovakia, Milan Kundera explains, he felt drawn to the spirit of the eighteenth century—"And it seemed to me that nowhere was it to be found more densely concentrated than in that banquet of intelligence, humor, and fantasy, Jacques le Fataliste." The upshot was this "Homage to Diderot," which has now been performed throughout the United States and Europe. Here, Jacques and His Master, newly translated by Simon Callow, is a text that will delight Kundera's admirers throughout the English-speaking world.

A Jacques Barzun Reader Aug 07 2020 Throughout his career Jacques Barzun, author of more than thirty books, including most recently the New York Times bestseller From Dawn to Decadence, has always been known as a witty and graceful essayist, one who combines a depth of knowledge and a rare facility with words. In A Jacques Barzun Reader, Michael Murray has carefully selected from Barzun's oeuvre eighty of the most inventive, accomplished, and insightful essays, now available for the first time in one magisterial volume. The list of subjects covered has an amazing range: history, philosophy, literature, education, music -- and more. Here is Barzun's classic examination of baseball in American life, Lincoln as a literary artist, and the pleasures of reading crime fiction. Among the many diverse figures whom Barzun reexamines -- leading to fresh portraits -- are Shaw, Berlioz, Swift, both Henry and William James, Dorothy Sayers, Chapman, Agate, and Diderot. Jacques Barzun draws the reader into his enthusiasms with an infectious style and keen insights. A Jacques Barzun Reader is a feast for any reader.

Technique, Discourse, and Consciousness Mar 26 2022 French thinker Jacques Ellul's technology refers not only to machines and their usage, but also to the mentalities for which it has become a necessity. Technology is shown as a will to power, an obsession with order, and a drive toward efficiency that establishes its own specific symbology and language.

Lacan Noir Jul 26 2019 This book explores how Jacques Lacan has influenced Black Studies from the 1950s to the present day, and in turn how a Black Studies framework challenges the topographies of Lacanianism in its understanding of race. David Marriott examines how a contemporary Black Studies perspective might respond to the psychoanalysis of race by taking advantage of the recent revitalization of Lacanianism in its speculative, metaphysical form. While the philosophical side of the debate makes a plea for a new universalism, this book proposes a Lacanian reassessment of the notion of race, a notion distinct from culture, language, religion, and identity. It argues that it is possible to re-establish the theoretical relation between capitalism, anti-blackness, and colonialism, by reassessing the links between Lacanian psychoanalysis and three main domains of black inquiry: mastery, knowledge, and embodiment. The book offers a strikingly original rereading of the place of Lacan in both Fanon Studies and Afro-pessimism. It will appeal to students and scholars of Black Studies, Cultural Studies, Critical Theory and Philosophy.

Social Imaginaries in a Globalizing World Nov 02 2022 How to study the contemporary dynamics between the religious, the nonreligious and the secular in a globalizing world? Obviously, their relationship is not an empirical datum, liable to the procedures of verification or of logical deduction. We are in need of alternative conceptual and methodological tools. This volume argues that the concept of 'social imaginary' as it is used by Charles Taylor, is of utmost importance as a methodological tool to understand these dynamics. The first section is dedicated to the conceptual clarification of Taylor's notion of social imaginaries both through a historical study of their genealogy and through conceptual analysis. In the second section, we clarify the relation of 'social imaginaries' to the concept of (religious) worldviewing, understood as a process of truth seeking. Furthermore, we discuss the practical usefulness of the concept of social imaginaries for cultural scientists, by focusing on the concept of human rights as a secular social imaginary. In the third and final section, we relate Taylor's view on the role of social imaginaries and the new paths it opens up for religious studies to other analyses of the secular-religious divide, as they nowadays mainly come to the fore in the debates on what is coined as the 'post-secular.'

Derrida Jul 30 2022 In this critical introduction to one of the twentieth century's most influential thinkers, Bennington responds to Derrida in a series of dialogues that cover language, signature, sexual difference, law, and much more. By the author of Lyotard.

I Was a Dancer Sep 19 2021 “Who am I? I’m a man; an American, a father, a teacher, but most of all, I am a person who knows how the arts can change lives, because they transformed mine. I was a dancer.” In this rich, expansive, spirited memoir, Jacques d’Amboise, one of America’s most celebrated classical dancers, and former principal dancer with the New York City Ballet for more than three decades, tells the extraordinary story of his life in dance, and of America’s most renowned and admired dance companies. He writes of his classical studies beginning at the age of eight at The School of American Ballet. At twelve he was asked to perform with Ballet Society; three years later he joined the New York City Ballet and made his European debut at London’s Covent Garden. As George Balanchine’s protégé, d’Amboise had more works choreographed on him by “the supreme Ballet Master” than any other dancer, among them Tchaikovsky Pas de Deux; Episodes; A Midsummer’s Night’s

Dream; Jewels; Raymonda Variations. He writes of his boyhood—born Joseph Ahearn—in Dedham, Massachusetts; his mother (“the Boss”) moving the family to New York City’s Washington Heights; dragging her son and daughter to ballet class (paying the teacher \$7.50 from hats she made and sold on street corners, and with chickens she cooked stuffed with chestnuts); his mother changing the family name from Ahearn to her maiden name, d’Amboise (“It’s aristocratic. It has the ‘d’ apostrophe. It sounds better for the ballet, and it’s a better name”). We see him, a neighborhood tough, in Catholic schools being taught by the nuns; on the streets, fighting with neighborhood gangs, and taking ten classes a week at the School of American Ballet . . . being taught professional class by Balanchine and by other teachers of great legend: Anatole Oboukhoff, premier danseur of the Maryinsky; and Pierre Vladimiroff, Pavlova’s partner. D’Amboise writes about Balanchine’s succession of ballerina muses who inspired him to near-obsessive passion and led him to create extraordinary ballets, dancers with whom d’Amboise partnered—Maria Tallchief; Tanaquil LeClercq, a stick-skinny teenager who blossomed into an exquisite, witty, sophisticated “angel” with her “long limbs and dramatic, mysterious elegance . . .”; the iridescent Allegra Kent; Melissa Hayden; Suzanne Farrell, who Balanchine called his “alabaster princess,” her every fiber, every movement imbued with passion and energy; Kay Mazzo; Kyra Nichols (“She’s perfect,” Balanchine said. “Uncomplicated—like fresh water”); and Karin von Aroldingen, to whom Balanchine left most of his ballets. D’Amboise writes about dancing with and courting one of the company’s members, who became his wife for fifty-three years, and the four children they had . . . On going to Hollywood to make Seven Brides for Seven Brothers and being offered a long-term contract at MGM (“If you’re not careful,” Balanchine warned, “you will have sold your soul for seven years”) . . . On Jerome Robbins (“Jerry could be charming and complimentary, and then, five minutes later, attack, and crush your spirit—all to see how it would influence the dance movements”). D’Amboise writes of the moment when he realizes his dancing career is over and he begins a new life and new dream teaching children all over the world about the arts through the magic of dance. A riveting, magical book, as transformative as dancing itself.

Against the Pollution of the I Aug 26 2019 Despite being blinded as a child, Jacques Lusseyran went on to help form a key unit of the French Resistance — and survive the Nazis’ Buchenwald concentration camp. He wrote about these experiences in his inspiring memoir *And There Was Light*. In this remarkable collection of essays, Lusseyran writes of how blindness enabled him to discover aspects of the world that he would not otherwise have known. In “Poetry in Buchenwald,” he describes the unexpected nourishment he and his fellow prisoners found in poetry. In “What One Sees Without Eyes” he describes a divine inner light available to all. Just as Lusseyran transcended his most difficult experiences, his writings give triumphant voice to the human ability to see beyond sight and act with unexpected heroism.

Cognition and Crime May 28 2022 The rational choice perspective developed by Cornish and Clarke in 1986 provides criminologists with a valuable and practical framework for purposes of crime control and prevention. More than twenty-five years later, *Cognition and Crime* pushes the boundaries of this field of research by bringing together international leading (or emerging) researchers in this area of script analysis into a single volume for the first time. It also presents a series of original contributions on offender decision-making during crime and crime script analysis as well as offering a critical perspective of what could be achieved in the future to further help develop this field of research for prevention purposes. In addition, each empirical chapter treats a specific and important form of crime such as stalking violence, drug dealing, human trafficking for sexual exploitation, child sexual abuse, and transnational illegal market of endangered species. Academics and students from various backgrounds, and interested in investigating and preventing crime, will benefit from this book as it applies crime script analysis and discusses new and future developments in regards to this approach and the rational choice perspective. This volume will be of particular relevance for practitioners such as police officers and crime investigators.

Jacques Lacan's Return to Freud Aug 19 2021 From 1953 to 1980, Jacques Lacan sought to accomplish a return to Freud beyond post-Freudianism. He defined this return as "a new covenant with the meaning of the Freudian discovery." Each year through his teaching, he brought about this return. What was at stake in this renewal? Philippe Julien, who joined Lacan's Ecole Freudienne de Paris in 1968, here attempts to answer this question. Situated in the period "after-Lacan," Julien shows that Lacan's return to Freud was neither a closing of the Freudian text that responded to questions left unanswered nor a reopening of the text that gave endless new interpretations. Neither dogmatic nor hermeneutic, Lacan's return to Freud was the return of an inevitable discordance between our experience of the unconscious and any attempt to give an account of it. For the unconscious, by its very nature, disappears at the same moment as it is discovered. It is in this sense that the author can claim that Lacan's return to Freud has been Freudian. Constantly challenging the reader to submit to the rigors of Lacan's sinuous thinking, this penetrating work is far more than a mere introduction. Rendered into elegant English by the American translator, who added numerous footnotes and scholarly references to the French original, this study brings Lacanian scholarship among English readers to a new level of sophistication.

Jacques Lacan Oct 09 2020 Although many books have been published on Jacques Lacan that attempt to explain his work and to provide insights into the relationship between his work and his life, most of them depend largely on the small number of texts that were published in his lifetime. JACQUERS LACAN, published to great acclaim in France in 1986, has now been translated into English. It is the first look at Lacan and his work from within the French context. Marcelle Marini, a knowledgeable insider, provides a full chronological, biographical, and bibliographical dossier - year by year - of the progress of Lacan's work.

Jacques Lipchitz Sep 27 2019 "The threat of Hitler's troops prompted Lipchitz to move to America in 1941, where he stayed until his death in 1973. Taking nothing but one or two maquettes, Lipchitz successfully rebuilt his career and became recognized as the grand old man of Cubism and a pioneer in a new cross-cultural view of art. He was also considered a master at setting up a dialogue between outdoor monumental sculpture and its surrounding environment or architecture."--BOOK JACKET.

The Very Rich Hours of Jacques Maritain Jun 16 2021 The Very Rich Hours of Jacques Maritain is Ralph McInerny's hymn of praise to the spiritual and intellectual life of the great Catholic philosopher Jacques Maritain (1881-1973). The structure of this work is modelled on the medieval book of hours, making use of the daily offices, from Matins through Compline, to examine each stage of the life of Maritain and his wife, Raissa. Through this blending of biography and meditation, McInerny creates a portrait of the Maritains, one that reveals a model of the intellectual life as lived by the Christian believers. Maritain's life and thought. Among the topics McInerny covers are Maritain's remarkable and diverse set of friends, his involvement in French politics and the development of his views on the nature and future of democracy, the Church and Catholic intellectual life. By interweaving Maritain's philosophy with anecdotes from his life, McInerny demonstrates what distinguished Maritain as a Catholic philosopher and why he is a source of inspiration for McInerny and others of his generation. and the work of Ralph McInerny.

The Autobiography Effect Dec 31 2019 Since the advent of post-structuralism, various authors have problematized the modern conception of autobiography by questioning the status of authorship and interrogating the relation between language and reality. Yet even after making autobiography into a theoretical problem, many of these authors ended up writing about themselves. This paradox stands at the center of this wide-ranging study of the form and function of autobiography in the work of authors who have distanced themselves from its modern instantiation. Discussing Roland Barthes, Jacques Derrida, Hélène Cixous and others, this book grapples with the question of what it means to write the self when the self is understood as an effect of writing. Combining close reading, intellectual history and literary theory, *The Autobiography Effect* traces how precisely its theoretically problematic nature made autobiography into a central scene for the negotiation of philosophical positions and anxieties after structuralism.

Jean-Jacques Rousseau Jan 24 2022 An Ernest Bernbaum Professor of Literature at Harvard University reconstructs the life of the French literary genius whose writing changed opinions and fueled fierce debate on both sides of the Atlantic during the period of the American and French revolutions.
