The Practice of Authentic PLCs Dec 01 2019 This book for school leaders details how to implement authentic PLCs in schools and districts. Its aim is not to sell the work of PLCs, but rather to assist school leaders and teachers in developing the knowledge and tools necessary to do the work of building and sustaining real PLCs. Grounded in Venables' foundational training and work with the Coalition for Essential Schools, this book unites collaboration, facilitation, data inquiry, using protocols for student and teacher work, designing comprehensive formative assessments (CFAs) and planning data-based instructional intervention into one cohesive handbook. In a step-by-step manner, this book lays out how to establish and do the work of PLCs right the first time. And for schools already dabbling with teacher collaboration and who have instituted a version of PLCs-lite, this work can help existing groups go deeper in the doing the work of authentic, effective PLCs.

Transformative Professional Learning Nov 11 2020 This professional development program provides practical steps to strengthen student motivation and learning through research-based approaches to enhance instructional improvement.

Visible Learners May 30 2022 A progressive, research-based approach for making learning visible Based on the Reggio Emilia approach to learning, VisibleLearners highlights learning through interpreting objects and artifacts, group learning, and documentation to make students' learning evident to teachers. Visible classrooms are committed to five key principles: that learning is purposeful, social, emotional, empowering, and representational. The book includes visual essays, key practices, classroom and examples. Show how to make learning happen in relation to others, spark emotional connections, give students power over their learning, and express ideas in multiple ways Illustrate Reggio-inspired principles and approaches via quotes, photos, student and teacher reflections, and examples of student work Offer a new way to enhance learning using progressive, research-based practices for increasing collaboration and critical thinking in and outside the classroom Visible Learners asks that teachers look beyond surface-level to understand who students are, what they come to know, and how they come to know it.

The Naked Presenter Mar 28 2022 When we learn to present naked, we reach our audiences by communicating the essence of the message, stripping away all that is unnecessary and embracing the ideas of simplicity, clarity, honesty, integrity, and passion. If "slideware" is used, the slides never steal the show or rise above serving a strong but simple supportive role. The ideas in the presentation may or may not be radical, earth shattering, or new, but there is freshness to the approach and content that makes a lasting impression. In this invaluable resource from the author for the best-selling books *Presentation Zen* and *Presentation Zen Design*, you will discover how to get to the core of your message and deliver presentations that are as natural as they are memorable. Whether you are just in the planning stages or need advice for a talk that begins in an hour, you'll find wisdom in *The Naked Presenter* that you can use to connect deeply with your audience and deliver a great presentation.

The One-Minute Presentation Feb 24 2022 Where do I start? What do I say? I don't want to sound like a salesman. How can I relax my prospects? When we are untrained, giving presentations can be difficult. We don't know the real questions in the minds of our prospects. We don't know what triggers a "yes" or "no" decision. Many times, we don't even know where to start. Our fascination with information holds us back. We can't see the big picture because we are drowning in facts. And, what actually is the big picture? It is simply this: Does the prospect want to join our business or not? But what would happen if we changed our entire business presentation model? First, we learn to get presentation appointments with almost 100% of the people we talk to. Next, we learn to give our entire business presentation in less than one minute. If we could do this, how do we think our prospects will feel? Thrilled! When we can give our entire business presentation in less than one minute, many good things happen. We save time, not only for ourselves, but for our prospect. That makes two people happy. Plus, this gives us the flexibility to give our presentation anywhere, at any time, in any circumstances. And finally, all the sales tension disappears from our prospects when they know our presentation will take only one minute. Learn to make your business grow with this efficient, focused business presentation technique. Scroll up and order your copy now!

Teaching and Learning in Physical Therapy Sep 29 2019 *Teaching and Learning in Physical Therapy: From Classroom to Clinic* is a text seeking to guide the development of effective teaching strategies for use in both the classroom and the clinical setting. Margaret Plack and Maryanne Driscoll have developed this text with over 35 years of experience in teaching, research and clinical work. This experience has given them the opportunity to discover the best ways to students learn at different ages and stages of development. *Teaching and Learning in Physical Therapy* is grounded in current literature and has a theoretical basis in reflective practice, active learning strategies, and brain compatible instruction. Also included is practical information that allows students, educators, and clinicians, working with both students and patients, to develop instructional strategies that will work best in a variety of settings. Features included: • A user-friendly approach integrating theory and practical application throughout • References and suggested reading at the end of each chapter • Classroom and clinical vignettes to help reinforce concepts • Integrative problem solving activities and reflective questions *Teaching and Learning in Physical Therapy: From Classroom to Clinic* is applicable in both the classroom and clinical setting, making it ideal for physical therapy students, educators, and clinicians as well as other health care practitioners and educators.

What If? Building Students' Problem-Solving Skills Through Complex Challenges Nov 23 2021 If a fundamental goal of schooling is to prepare young people for the unknowable future, why do we assign students so many clearly defined tasks with predetermined solutions? According to educator and creativity expert Ronald A. Beghetto, the best way to unleash students' problem solving and creativity—and thus prepare them to face real-world problems—is to incorporate complex challenges that teach students to respond productively to uncertainty. In this thought-provoking book, Beghetto explains * How to foster "possibility thinking" to help students open up their thinking in creative, sometimes counterintuitive ways. * The process of lesson unplanning, a way of transforming existing lessons, activities, and assignments into more complex classroom challenges. * Four basic action principles that teachers and students can use to design and solve complex challenges both inside and outside the classroom. * The steps for creating legacy challenges, which require students to identify a problem, develop a solution, and ensure that their work makes a lasting contribution. With planning forms and detailed sample activities, this practical guide will enable teachers at every grade level to design a full range of challenges in any subject area. Invite uncertainty into your classroom—and discover what your students are capable of.

Knockout Presentations Aug 01 2022 Called the Bible of Public speaking, *Knockout Presentations* is a “seminar in a book” that reduces fear and gives speakers the steps to craft and deliver a talk that will make them a knockout on the platform! It's the next best thing to having Diane DiResta there to teach in person. DiResta provides all the fundamentals without the fluff. Speakers learn what confidence looks like, sounds like, and how to speak the language of confidence, reduce preparation time, craft a compelling talk, size up an audience, overcome fear, and master questions and answers. The Dos and Don'ts at the end of each chapter help speakers review and remember the principles even after putting them into practice. Speaking is the new competitive advantage and *Knockout Presentations* gives speakers tools and techniques, templates, and resources to improve their skills.

Eloquent Science Jul 28 2019 Mary Grace Soccio. My writing could not please this kindhearted woman, no matter how hard I tried. Although Gifted and Talented seventh-grade math posed no problem for me, the same was not true for Mrs. Soccio's English class. I was frustrated that my first assignment only netted me a C. I worked harder, making revision after revision, a concept I had never really put much faith in before. At last, I produced an essay that seemed the apex of what I was capable of writing. Although the topic of that essay is now lost to my memory, the grade I received was not: a B?. “The best I could do was a B??” The realization sank in that maybe I was not such a good writer. In those days, my youthful hubris did not understand about capacity building. In other words, being challenged would result in my intellectual growth—an academic restatement of Nietzsche's “What does not destroy me, makes me stronger.” Consequently, I asked to be withdrawn from Gifted and Talented English in the eighth grade.

In Search of Deeper Learning Oct 30 2019 Winner of the Grawemeyer Award in Education “The best book on high school dynamics I have ever read.” —Jay Mathews, *Washington Post* “A hopeful, easy-to-read narrative on what the best teachers do and what deep, engaging learning looks like for students. Grab this text if you're looking for a celebration of what's possible in American schools.” —Edutopia “A must-read for anyone interested in the fate of the American high school.” —Linda Darling-Hammond, President and CEO, Learning Policy Institute What would it take to transform our high schools into places capable of supporting deep learning for students across a wide range of aptitudes and interests? To find out, Jal Mehta and Sarah Fine spent hundreds of hours observing and talking to teachers and students in and out of the classroom at thirty of the country's most innovative schools. To their dismay, they discovered that deeper learning is more often the exception than the rule. And yet they found pockets of powerful learning at almost every school, often in extracurriculars but also in a few mold-breaking academic courses. So what must schools do to achieve the integrations that support deep learning: rigor with joy, precision with play, mastery with identity and creativity? *In Search of Deeper Learning* takes a deep dive into the state of our schools and lays out an inspiring new vision for American education.

Trainers in Motion Jul 08 2020 "What can trainers learn from ""Sesame Street""? Apparently quite a lot. Like how to make trainees turn on--not tune out--to learning by injecting training sessions with energy and excitement. Trainers in Motion is a lively new book that offers a training approach inspired by the success of ""Sesame Street"" and other children's educational programming. Centered around the idea of ""edutainment"" (which says people learn better by doing), this book emphasizes interactive learning and shows readers how to: * Apply the principles of edutainment to workshops for adults * Create a stimulating learning environment * Engage the imagination and creative side of trainees * Make the training experience more exciting, involving, and productive for both learner and trainer. Perhaps best of all, the training techniques in Trainers in Motion work in any training environment, with any topic, and with any type of person."

The Presentation Coach Oct 03 2022 You probably hate giving presentations. You probably hate listening to them too. Why? Because most business presentations are too long, too detailed, too boring...and submerged under a blizzard of PowerPoint. But the single most important presentational tool known to man isn't a slideshow. It's you. Whether you're speaking to one person across a table, 20 people in a boardroom or 1,000 people in a ballroom, it's all about the words you say and how you say them. The Presentation Coach shows you how to use what you've already got to give you clarity, confidence and impact in every speaking challenge you will ever face. You'll learn the unique Bare Knuckle 5-step process to effective presenting, and how to apply it to all business speaking, from large-scale presentations to one-to-one client meetings. Graham Davies has been coaching high-profile individuals from the worlds of business, politics and entertainment in exactly these techniques for the past 25 years. Now it's your turn. Praise for The Presentation Coach "Graham Davies is a brilliantly funny speaker who knows how to inspire and enthuse anyone who sees presenting as a bore, a burden or a source of terror." Nick Robinson, Political Editor, BBC "This book really captures Graham's intense and robust sense of coaching. Just like the author, it is amusing, punchy and really comforting to have access to in all presentation situations." Michel Combes, CEO, Vodafone Europe "Required reading for anyone who wants their presentations to enthuse rather than euthanize their audience." Tim Curtis, MD, Northern Europe, Land's End "Graham is a highly effective presentation coach. He is always honest and gets straight to the point. His book is just as direct and entertaining as he is in person." Nick Jeffery, CEO, Vodafone Global Enterprise "I don't know anyone who could wear the label 'the presentation coach' more confidently than Graham." Daniel Finkelstein, Executive Editor, The Times "I use Graham's system strictly and religiously in every speech. In fact on almost every important occasion when I need to get a message across.... You will never regret buying and using this book." George Clarke, MD, Heidelberg UK "Graham helped me develop my very own presentation style, true to myself, with high impact and focused very much on the audience." Phil Clarke, CEO Designate, Tesco "Graham's approach is ruthlessly robust and utterly practical. This book is the next best thing to seeing him in person, and much less of a strain on your budget." Matthew Wilson, CEO Brit Global Markets "...Davies's compelling book illuminates all the pitfalls and provides a simple guide to allowing personality into presentations - radical stuff indeed!" Andy Street, MD, John Lewis "Whether you are a Prime Minister, chief executive or anyone else who needs make an impact, then you must read this challenging and innovative book by Graham Davies." Neil Sherlock, Partner, Public Affairs, KPMG "...I wish Graham had written it 20 years ago..." Richard Klein, MD, Bank of America Merrill Lynch "Never again will you commit the crime of Death by Bullet-Point." Penny Philpot, Group Vice President, Worldwide Partner Services, Oracle "Graham Davis is a talented gagmeister who shows that the best way of exposing a bad argument is with a good joke." Boris Johnson, Mayor of London "Reading his book will spur you on to win your own presentational race." Richard Dunwoody, twice winner of the Grand National "Graham completely reframed my approach to presenting. His approach works!" Otto Thoresen, CEO, Aegon UK "A process that you can use no matter what the situation. I heart

How Teachers Can Turn Data into Action Jun 26 2019 " From state and Common Core tests to formative and summative assessments in the classroom, teachers are awash in data. Reviewing the data can be time-consuming, and the work of translating data into real change can seem overwhelming. Tapping more than 30 years' experience as an award-winning teacher and a trainer of PLC coaches, Daniel R. Venables, author of The Practice of Authentic PLCs: A Guide to Effective Teacher Teams, soothes the trepidation of even the biggest ""dataphobes"" in this essential resource. Field-tested and fine-tuned with professional learning communities around the United States, the Data Action Model is a teacher-friendly, systematic process for reviewing and responding to data in cycles of two to nine weeks. This powerful tool enables you and your teacher team to * Identify critical gaps in learning and corresponding instructional gaps; * Collaborate on solutions and develop a goal-driven action plan; and * Evaluate the plan's effectiveness after implementation and determine the next course of action. With easy-to-use templates and protocols to focus and deepen data conversations, this indispensable guide delineates exactly what should be accomplished in each team meeting to translate data into practice. In the modern sea of data, this book is your life preserver! "

Transition to Advanced Mathematics Sep 21 2021 This unique and contemporary text not only offers an introduction to proofs with a view towards algebra and analysis, a standard fare for a transition course, but also presents practical skills for upper-level mathematics coursework and exposes undergraduate students to the context and culture of contemporary mathematics. The authors implement the practice recommended by the Committee on the Undergraduate Program in Mathematics (CUPM) curriculum guide, that a modern mathematics program should include cognitive goals and offer a broad perspective of the discipline. Part I offers: An introduction to logic and set theory. Proof methods as a vehicle leading to topics useful for analysis, topology, algebra, and probability. Many illustrated examples, often drawing on what students already know, that minimize conversation about "doing proofs." An appendix that provides an annotated rubric with feedback codes for assessing proof writing. Part II presents the context and culture aspects of the transition experience, including: 21st century mathematics, including the current mathematical culture, vocations, and careers. History and philosophical issues in mathematics. Approaching, reading, and learning from journal articles and other primary sources. Mathematical writing and typesetting in LaTeX. Together, these Parts provide a complete introduction to modern mathematics, both in content and practice.
