International Workshop on Evidence-Based Technology Enhanced Learning Aug 25 2019 Research on Technology Enhanced Learning (TEL) investigates how information and communication technologies can be designed in order to support pedagogical activities. The workshop proceedings collect contributions concerning evidence based TEL systems, like their design following EBD principles as well as studies or best practices that educators, education stakeholders or psychologists used to diagnose or improve their students' learning skills, including students with specific difficulties. The international ebTEL'12 workshop wants to be a forum in which TEL researchers and practitioners alike can discuss ideas, projects, and lessons related to ebTEL. The workshop takes place in Salamanca, Spain, on March 28th-30th 2012.

Canne al Vento Jun 23 2019 Nel romanzo di Deledda, la Sardegna si presenta davanti ai nostri occhi e con tutti i nostri sensi: il profumo dei giardini e dei campi, i sentieri tortuosi, le dolci colline, il calore minaccioso della distesa infinita, la fresca frescura di un ruscello gorgogliante, la vegetazione lussureggiante , tra le povere dimore che sono tutt'uno con la natura e offrono poca protezione agli animali e alle persone.

Gardens, Knowledge and the Sciences in the Early Modern Period Nov 28 2019 This volume focuses on the outstanding contributions made by botany and the mathematical sciences to the genesis and development of early modern garden art and garden culture. The many facets of the mathematical sciences and botany point to the increasingly "scientific" approach that was being adopted in and applied to garden art and garden culture in the early modern period. This development was deeply embedded in the philosophical, religious, political, cultural and social contexts, running parallel to the beginning of processes of scientization so characteristic for modern European history. This volume strikingly shows how these various developments are intertwined in gardens for various purposes.

Reeds in the Wind Aug 30 2022 The rugged landscape of Baronìa on Sardinia sets the scene for this novel of crime, guilt and retribution. This novel presents the story of the Pintor sisters - from a family of noble landowners now in decline - their nephew Giacinto, and their servant Efix, who is trying to make up for a mysterious sin committed many years before. Around, below, and inside them the raging Mediterranean storms, the jagged mountains, the murmuring forests, and the gushing springs form a Greek chorus of witness to the tragic drama of this unforgiving land. Deledda tells her story with her

characteristic love of the natural landscape and fascination with the folk culture of the island, with details about the famous religious festivals held in mountain encampments and the lore of the "dark beings who populate the Sardinian night, the fairies who live in rocks and caves, and the sprites with seven red caps who bother sleep." Introduction by the Sardinian ethnographer, Dolores Turchi.
