Music Description and Access Aug 22 2019 Music Description and Access: Solving the Puzzle of Cataloging is both a textbook for students and a handbook and reference source for practicing catalogers. The bulk of the book is a step-by-step guide to cataloging music materials, with dozens of examples showing images of published scores or audio recordings. Content and encoding are treated separately, using RDA and MARC21. Interspersed in the chapters on practical cataloging are short Historical Asides, essays putting particular devices or conventions into context. These essays supplement a chapter on cataloging history, which follows an introductory chapter that sets the stage for the task at hand. The book ends with a chapter by Maristella Feustle on describing and providing access to music special collections, using both archival and rare-music-cataloging standards. Aids in navigating the book include an index plus multiple lists and tables. A bibliography and a list of cataloging tools that are available online are also given.

International Maritime Conventions (Volume 3) Jul 25 2022 For the first time, this unique text brings together all private international maritime law conventions alongside expert commentary and analysis. Truly global in approach, the book covers each of the nineteen conventions currently in force, all scrutinised by this internationally-acclaimed author. It also examines important maritime conventions not yet fully ratified, including the topical Rotterdam Rules. This comprehensive resource provides a thorough treatment of both wet and dry shipping treaties, combining breadth of coverage with depth of analysis. In this third volume, the author covers the key conventions dealing with pollution and safety at sea. In particular, the author covers the following instruments: International Convention relating to Intervention on the High Seas in Cases of Oil Pollution Casualties, 1969 and Protocol of 1973 International Convention on Oil Pollution Preparedness, Response and Co-operation, 1990 (OPRC Convention) with its Protocol of 2000 (OPRC-HNS Protocol) International Convention for the prevention of pollution from ships (MARPOL) and protocol of 1978 International Convention for the Safety of life at sea, 1974 (SOLAS) Convention on the prevention of marine pollution by dumping of wastes and other matters, 1972 as amended by the protocol of 1996 International Convention for the control and management of ship's ballast water and sediments, 2004 International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, 1978 Nairobi International Convention on removal of wrecks 18 may 2007 Port state control: the Paris Memorandum of Understanding and the European Directive 2009/16 EC European Traffic Monitoring and Information System International Convention on Civil Liability for Oil Pollution Damage, 1992 (CLC 1992) International Convention on the Establishment of an International Fund for Compensation for Oil Pollution Damage, 1992, as amended by its Protocol of 2000 and its Supplementary Protocol of 2003 (the Fund Convention) International Convention on Civil Liability for Bunker Oil Pollution Damage, 2001 International Convention on Liability and Compensation for Damage in Connection with Carriage of Hazardous and Noxious Substances by Sea, 1996 This book is an indispensable reference for maritime lawyers, academics and students of maritime law worldwide.

Government Auditing Standards - 2018 Revision Sep 03 2020 Audits provide essential accountability and transparency over government programs. Given the current challenges facing governments and their programs, the oversight provided through auditing is more critical than ever. Government auditing provides the objective analysis and information needed to make the decisions necessary to help create a better future. The professional standards presented in this 2018 revision of Government Auditing Standards (known as the Yellow Book) provide a framework for performing high-quality audit work with competence, integrity, objectivity, and independence to provide accountability and to help improve government operations and services. These standards, commonly referred to as generally accepted government auditing standards (GAGAS), provide the foundation for government auditors to lead by example in the areas of independence, transparency, accountability, and quality through the audit process. This revision contains major changes from, and supersedes, the 2011 revision.

MARPOL Consolidated Edition 2011 Oct 28 2022 The International Convention for the Prevention of Pollution from Ships, 1973 (MARPOL Convention), is concerned with preserving the marine environment through the prevention of pollution by oil and other harmful substances and the minimization of accidental discharge of such substances. Its technical content is laid out in six Annexes, the first five of which were in the 1973 Convention, as modified by the 1978 Protocol, and cover pollution of the sea by oil, by noxious liquid substances in bulk, by harmful substances in packaged form, by sewage from ships and by garbage from ships. Annex VI was adopted by the 1997 Protocol and covers air pollution from ships

The Intellectual Foundation of Information Organization Aug 02 2020 Integrating the disparate disciplines of descriptive cataloging, subject cataloging, indexing, and classification, the book adopts a conceptual framework that views the process of organizing information as the use of a special language of description called a bibliographic language. Instant electronic access to digital information is the single most distinguishing attribute of the information age. The elaborate retrieval mechanisms that support such access are a product of technology. But technology is not enough. The effectiveness of a system for accessing information is a direct function of the intelligence put into organizing it. Just as the practical field of engineering has theoretical physics as its underlying base, the design of systems for organizing information rests on an intellectual foundation. The subject of this book is the systematized body of knowledge that constitutes this foundation. Integrating the disparate disciplines of descriptive cataloging, subject cataloging, indexing, and classification, the book adopts a conceptual framework that views the process of organizing information as the use of a special language of description called a bibliographic language. The book is divided into two parts. The first part is an analytic discussion of the intellectual foundation of information organization. The second part moves from generalities to particulars, presenting an overview of three bibliographic languages: work languages, document languages, and subject languages. It looks at these languages in terms of their vocabulary, semantics, and syntax. The book is written in an exceptionally clear style, at a level that makes it understandable to those outside the discipline of library and information science.

Shipping and the Environment Apr 29 2020 This book focuses on the interaction between shipping and the natural environment and how shipping can strive to become more sustainable. Readers are guided in marine environmental awareness, environmental regulations and abatement technologies to assist in decisions on strategy, policy and investments. You will get familiar with possible paths to improve environmental performance and, in the long term, to a sustainable shipping sector, based on an understanding of the sources and mechanisms of common impacts. You will also gain knowledge on emissions and discharges from ships, prevention measures, environmental regulations, and methods and tools for environmental assessment. In addition, the book includes a chapter on the background to regulating pollution from ships. It is intended as a source of information for professionals connected to maritime activities as well as policy makers and interested public. It is also intended as a textbook in higher education academic programmes.

The Pig Book Mar 21 2022 The federal government wastes your tax dollars worse than a drunken sailor on shore leave. The 1984 Grace Commission uncovered that the Department of Defense spent \$640 for a toilet seat and \$436 for a hammer. Twenty years later things weren't much better. In 2004, Congress spent a record-breaking \$22.9 billion dollars of your money on 10,656 of their pork-barrel projects. The war on terror has a lot to do with the record \$413 billion in deficit spending, but it's also the result of pork over the last 18 years the likes of: - \$50 million for an indoor rain forest in Iowa - \$102 million to study screwworms which were long ago eradicated from American soil - \$273,000 to combat goth culture in Missouri - \$2.2 million to renovate the North Pole (Lucky for Santa!) - \$50,000 for a tattoo removal program in California - \$1 million for ornamental fish research Funny in some instances and jaw-droppingly stupid and wasteful in others, The Pig Book proves one thing about Capitol Hill: pork is king!

Investing in the Health and Well-Being of Young Adults May 31 2020 Young adulthood - ages approximately 18 to 26 - is a critical period of development with long-lasting implications for a person's economic security, health and well-being. Young adults are key contributors to the nation's workforce and military services and, since many are parents, to the healthy development of the next generation. Although 'millennials' have received attention in the popular media in recent years, young adults are too rarely treated as a distinct population in policy, programs, and research. Instead, they are often grouped with adolescents or, more often, with all adults. Currently, the nation is experiencing economic restructuring, widening inequality, a rapidly rising ratio of older adults, and an increasingly diverse population. The possible transformative effects of these features make focus on young adults especially important. A systematic approach to understanding and responding to the unique circumstances and needs of today's young adults can help to pave the way to a more productive and equitable tomorrow for young adults in particular and our society at large. Investing in The Health and Well-Being of Young Adults describes what is meant by the term young adulthood, who young adults are, what they are doing, and what they need. This study recommends actions that nonprofit programs and federal, state, and local agencies can take to help young adults make a successful transition from adolescence to adulthood. According to this report, young adults should be considered as a separate group from adolescents and older adults. Investing in The Health and Well-Being of Young Adults makes the case that increased efforts to improve high school and college graduate rates and education and workforce development systems that are more closely tied to high-demand economic sectors will help this age group achieve greater opportunity and success. The report also discusses the health status of young adults and makes recommendations to develop evidence-based practices for young adults for medical and behavioral health, including preventions. What happens during the young adult years has profound implications for the rest of the life course, and the stability and progress of society at large depends on how any cohort of young adults fares as a whole. Investing in The Health and Well-Being of Young Adults will provide a roadmap to improving outcomes for this age group as they transition from adolescence to adulthood.

Internal Revenue Service Data Book, 2011: October 1, 2010 to September 30, 2011 May 11 2021 Covers October 1, 2004 to September 30, 2005. Provides data on collecting Federal tax revenue, enforcing tax law, assisting taxpayers, managing the internal revenue system. Includes lists of key IRS officials, and an organizational chart of the IRS.

Marine Pollution Control Jan 27 2020 This book discusses in a concise manner the key aspects that are important for the understanding of regulations and managerial framework governing marine pollution. It identifies the practical context in which marine pollution comes into play and addresses the international legal regime governing the numerous sources of marine pollution, as well as the ways in which these regulations affect the conduct of day-to-day shipping operations. With illustrations, case studies, emphasis boxes, references to case law and to national jurisdictions and other tools facilitating understanding and knowledge, readers will find helpful guidance on: the sources of marine pollution (including ship-source pollution and pollution from the offshore oil and gas sector); the forms of cooperation needed in order to tackle the prevention, management and response to marine pollution; overview of MARPOL Convention, other key IMO conventions, and selected regional regimes; legal ramifications, including P & I Clubs and limitation of liability; involvement of the flag State, coastal State and port State; industry best practice; the human element Marine Pollution Control will be a useful guidance tool for shipping Industry professionals, (P & I) Clubs, Legal practitioners, maritime administrators, as well as academics and students of marine pollution.

ISBD Feb 20 2022 This is the new edition of the first consolidated ISBD that was published in 2007. The first years of usage have led to interesting and useful corrections and additions. Many cataloguers and practitioners worldwide will welcome this updated first class tool, which is useful and applicable for descriptions of bibliographic resources in any type of catalogue.

National Electrical Code 2011 Handbook Feb 08 2021 The "National Electrical Code 2011 Handbook" provides the full text of the updated code regulations alongside expert commentary from code specialists, offering code rationale, clarifications for new and updated rules, and practical, real-world advice on how to apply the code.

New Contributions in Information Systems and Technologies Jun 12 2021 This book contains a selection of articles from The 2015 World Conference on Information Systems and Technologies (WorldCIST'15), held between the 1st and 3rd of April in Funchal, Madeira, Portugal, a global forum for researchers and practitioners to present and discuss recent results and innovations, current trends, professional experiences and challenges of modern Information Systems and Technologies research, technological development and applications. The main topics covered are: Information and Knowledge Management; Organizational Models and Information Systems; Intelligent and Decision Support Systems; Big Data Analytics and Applications; Software Systems, Architectures, Applications and Tools; Multimedia Systems and Applications; Computer Networks, Mobility and Pervasive Systems; Human-Computer Interaction; Health Informatics; Information Technologies in Education; Information Technologies in Radio communications.

Guidelines for the Implementation of MARPOL Feb 26 2020 The Marine Environment Protection Committee (MEPC) of IMO, at its sixty-second session in July 2011, adopted the Revised MARPOL Annex V, concerning Regulations for the prevention of pollution by garbage from ships, which enters into force on 1 January 2013. The associated guidelines which assist States and industry in the implementation of MARPOL Annex V have been reviewed and updated and two Guidelines were adopted in March 2012 at MEPC's sixty-third session. The 2012 edition of this publication contains: the 2012 Guidelines for the implementation of MARPOL Annex V (resolution MEPC.219(63)); the 2012 Guidelines for the development of garbage management plans (resolution MEPC.220(63)); and the Revised MARPOL Annex V (resolution MEPC.201(62)).

Load Lines Nov 05 2020 Load lines are painted on the side of a ship to show how low it may safely rest in the water. The 1966 International Convention on Load Lines (ICLL) is administered by the International Maritime Organization, and sets out detailed regulations on the assignment of the freeboard (the vertical distance between the top of the hull and the waterline) and the specific limitations to which different types of ships may be loaded. This publication contains the text of the 1966 Convention, the articles of the 1988 Protocol and amendments, the unified interpretations of the 1966 Convention approved by the Maritime Safety Committee up to December 2004, and the Form of Record conditions of assignment of load lines accepted by the Maritime Safety Committee.

The Stationery Office Annual Catalogue 2011 Oct 24 2019 The Stationery Office annual catalogue 2011 provides a comprehensive source of bibliographic information on over 4900 Parliamentary, statutory and official publications - from the UK Parliament, the Northern Ireland Assembly, and many government departments and agencies - which were issued in 2011.

MARPOL May 23 2022 The International Convention for the Prevention of Pollution From Ships 1973 and the Protocol of 1978 (known as MARPOL 73/78) entered into force in October 1983. Its objective is to preserve the marine environment by setting out regulations aimed at preventing and minimising pollution from ships, both accidental and through routine operations, including oil, chemicals, sewage and waste. This publication contains the 2006 consolidated edition of the treaty, including articles, protocols and annexes, and it supersedes the 2002 consolidated edition (ISBN 9280151258).

Consolidated guidelines on HIV prevention, testing, treatment, service delivery and monitoring Nov 24 2019 These consolidated guidelines on HIV prevention, testing, treatment, service delivery and monitoring bring together existing and new clinical and programmatic recommendations across different ages, populations and settings, bringing together all relevant WHO guidance on HIV produced since 2016. It serves as an update to the previous edition of the consolidated guidelines on HIV. These guidelines continue to be structured along the continuum of HIV care. Information on new combination prevention approaches, HIV testing, ARV regimens and treatment monitoring are included. There is a new chapter on advanced HIV disease that integrates updated guidance on the management of important HIV comorbidities, including cryptococcal disease, histoplasmosis and tuberculosis. The chapter on general HIV care, contains a new section on palliative care and pain management, and up to date information on treatment of several neglected tropical diseases, such as visceral leishmaniasis and Buruli ulcer. New recommendations for screening and treating of cervical pre-cancer lesions in women living with HIV are also addressed in this chapter. Guidance on service delivery was expanded to help the implementation and strengthening the HIV care cascade. Importantly, this guidance emphasizes the need for differentiated approaches to care for people who are established on ART, such as reduced frequency of clinic visits, use of multi-month drug dispensing and implementation of community ART distribution. The adoption of these efficiencies is essential to improve the quality of care of people receiving treatment and reduce the burden on health facilities, particularly in resource limited settings.

The Financial Crisis Inquiry Report, Authorized Edition Oct 16 2021 Examines the causes of the financial crisis that began in 2008 and reveals the weaknesses found in financial regulation, excessive borrowing, and breaches in accountability.

Federal Register Aug 14 2021

Consolidated Guidelines on the Use of Antiretroviral Drugs for Treating and Preventing HIV Infection Jun 24 2022 These guidelines provide guidance on the diagnosis of human immunodeficiency virus (HIV) infection, the use of antiretroviral (ARV) drugs for treating and preventing HIV infection and the care of people living with HIV. They are structured along the continuum of HIV testing, prevention, treatment and care. This edition updates the 2013 consolidated guidelines on the use of antiretroviral drugs following an extensive review of evidence and consultations in mid-2015, shared at the end of 2015, and now published in full in 2016. It is being published in a changing global context for HIV and for health more broadly.

Reeds 21st Century Ship Management Jul 01 2020 Ship management has constantly had to evolve to take into account the advancements in technology as well as the demands of the shipping industry. Having internet access and email on board ship has meant that the ship manager has to possess certain sets of skills to function effectively in the post, including computer literacy. The emergence of large multi-national ship management companies has also changed how business is conducted and this in turn means that the ship manager and tiers of management within the organization have had to evolve to cope with the demands of working with a multi-national workforce. Furthermore, since the mid-1980s there has been an ever expanding raft of legislation that is more restrictive for companies to meet, and a shrinking of profit margins has seen a shift in how companies are required to operate to survive. This book addresses the demands of 21st century ship management with the focus of the book as much about the people who manage ships as about the theory and practice of ship management.

Routledge Handbook of Maritime Regulation and Enforcement Jul 21 2019 With advances in technology and maritime transport, human use of the ocean now extends beyond the traditional activities of navigation and fishing. Emerging activities such as bioprospecting, deep seabed mineral and hydrocarbon exploration and exploitation, offshore renewable energy developments and marine scientific probes of deep sea areas challenge the applicability of maritime law and policy in new ways. This handbook examines current regulatory and enforcement instruments and mechanisms for different sectors of maritime activity. Covering various jurisdictions, its specially commissioned

chapters are authored by some of the world's foremost authorities on maritime law, and offer unique perspectives on maritime law, policy and practice. This highly relevant collection is organised into four parts: • International Law Considerations in Maritime Regulation and Enforcement • Role of States and other International Actors in Maritime Regulation and Enforcement • Regulation and Enforcement in Different Maritime Sectors • Current Issues and Future Challenges This comprehensive reference work will be of interest to scholars and students of maritime law, practitioners and non-lawyers interested in the regulation of offshore areas, as well as policy-makers.

ISBD: International Standard Bibliographic Description Sep 27 2022 This is the new edition of the first consolidated ISBD that was published in 2007. The first years of usage have led to interesting and useful corrections and additions. Many cataloguers and practitioners worldwide will welcome this updated first class tool, which is useful and applicable for descriptions of bibliographic resources in any type of catalogue.

Financial Report - University of Pennsylvania Oct 04 2020

Dragon in the Tropics Mar 29 2020 Since he was first elected in 1999, Venezuelan President Hugo Chávez Frías has reshaped a frail but nonetheless pluralistic democracy into a semi-authoritarian regime—an outcome achieved with spectacularly high oil income and widespread electoral support. This eye-opening book illuminates one of the most sweeping and unexpected political transformations in contemporary Latin America. Based on more than fifteen years' experience in researching and writing about Venezuela, Javier Corrales and Michael Penfold have crafted a comprehensive account of how the Chávez regime has revamped the nation, with a particular focus on its political transformation. Throughout, they take issue with conventional explanations. First, they argue persuasively that liberal democracy as an institution was not to blame for the rise of chavismo. Second, they assert that the nation's economic ailments were not caused by neoliberalism. Instead they blame other factors, including a dependence on oil, which caused macroeconomic volatility; political party fragmentation, which triggered infighting; government mismanagement of the banking crisis, which led to more centralization of power; and the Asian crisis of 1997, which devastated Venezuela's economy at the same time that Chávez ran for president. It is perhaps on the role of oil that the authors take greatest issue with prevailing opinion. They do not dispute that dependence on oil can generate political and economic distortions—the "resource curse" or "paradox of plenty" arguments—but they counter that oil alone fails to explain Chávez's rise. Instead they single out a weak framework of checks and balances that allowed the executive branch to extract oil rents and distribute them to the populace. The real culprit behind Chávez's success, they write, was the asymmetry of political power.

Prevention of Pollution of the Marine Environment from Vessels Dec 26 2019 This book examines the role of The International Maritime Organization (IMO) in the prevention and control of pollution of the marine environment from vessels with a particular reference to the current north-south tensions regarding the strategy for combating climate change in the maritime sector as well as the prevention of marine pollution from the ship-breaking industry. The IMO, a United Nations specialized agency, has been entrusted with the duty to provide machinery for cooperation among governments for the prevention and control of pollution of the marine environment from vessels. The organization is responsible for drafting legal instruments as well as for facilitating technical cooperation for the protection of the marine environment. Although IMO legal instruments are mainly targeted at the prevention of pollution of the marine environment from vessels, there is a trend towards a liberal interpretation of this, and the organization has expanded its work to areas like shipbreaking, which is essentially a land-based industry.

United States Code Apr 22 2022

Moonwalking with Einstein Jan 19 2022 "Highly entertaining." —Adam Gopnik, *The New Yorker* "Funny, curious, erudite, and full of useful details about ancient techniques of training memory." —*The Boston Globe* The blockbuster phenomenon that charts an amazing journey of the mind while revolutionizing our concept of memory. An instant bestseller that is poised to become a classic, *Moonwalking with Einstein* recounts Joshua Foer's yearlong quest to improve his memory under the tutelage of top "mental athletes." He draws on cutting-edge research, a surprising cultural history of remembering, and venerable tricks of the mentalist's trade to transform our understanding of human memory. From the United States Memory Championship to deep within the author's own mind, this is an electrifying work of journalism that reminds us that, in every way that matters, we are the sum of our memories.

Model Rules of Professional Conduct Aug 26 2022 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

The Greenhouse Gas Protocol Jan 07 2021 The GHG Protocol Corporate Accounting and Reporting Standard helps companies and other organizations to identify, calculate, and report GHG emissions. It is designed to set the standard for accurate, complete, consistent, relevant and transparent accounting and reporting of GHG emissions.

The Master Switch Apr 10 2021 A *New Yorker* and *Fortune* Best Book of the Year "A must-read for all Americans who want to remain the ones deciding what they can read, watch, and listen to." —Arianna Huffington Analyzing the strategic maneuvers of today's great information powers—Apple, Google, and an eerily resurgent AT&T—Tim Wu uncovers a time-honored pattern in which invention begets industry and industry begets empire. It is easy to forget that every development in the history of the American information industry—from the telephone to radio to film—once existed in an open and chaotic marketplace inhabited by entrepreneurs and utopians, just as the Internet does today. Each of these, however, grew to be dominated by a monopolist or cartel. In this pathbreaking book, Tim Wu asks: will the Internet follow the same fate? Could the Web—the entire flow of American information—come to be ruled by a corporate leviathan in possession of "the master switch"? Here, Tim Wu shows how a battle royale for the Internet's future is brewing, and this is one war we dare not tune out.

The Indigo Book Mar 09 2021 This public domain book is an open and compatible implementation of the Uniform System of Citation.

International Convergence of Capital Measurement and Capital Standards Nov 17 2021

Handbook of Industrial Hydrocarbon Processes Jul 13 2021 Written by an author with over 38 years of experience in the chemical and petrochemical process industry, this handbook will present an analysis of the process steps used to produce industrial hydrocarbons from various raw materials. It is the first book to offer a thorough analysis of external factors effecting production such as: cost, availability and environmental legislation. An A-Z list of raw materials and their properties are presented along with a commentary regarding their cost and availability. Specific processing operations described in the book include: distillation, thermal cracking and coking, catalytic methods, hydroprocesses, thermal and catalytic reforming, isomerization, alkylation processes, polymerization processes, solvent processes, water removal, fractionation and acid gas removal. Flow diagrams and descriptions of more than 250 leading-edge process technologies. An analysis of chemical reactions and process steps that are required to produce chemicals from various raw materials. Properties, availability and environmental impact of various raw materials used in hydrocarbon processing.

The Sexual Politics of Meat (20th Anniversary Edition) Sep 15 2021 >

Ship and Mobile Offshore Unit Automation Dec 18 2021 *Ship and Mobile Offshore Unit Automation: A Practical Guide: A Practical Guide* gives engineers a much-needed reference on relevant standards and codes, along with practical case studies on how to use these standards on actual projects and plans. Packed with the critical procedures necessary for each phase of the project, the book also gives an outlook on trends of development for control and monitoring systems, including usage of artificial intelligence in software development and prospects for the use of autonomous vessels. Rounding out with a glossary and introductory chapter specific to the new marine engineer just starting, this book delivers a source of valuable information to help offshore engineers be better prepared to safely and efficiently design today's offshore unit control systems. Helps readers understand the worldwide offshore unit regulations necessary for monitoring systems and automation installation, including ISO, IEC, IEEE, IMO, SOLAS AND MODU, ABS, DNVGL, API, NMA and NORSOK. Presents real-world examples that apply standards. Provides tactics on how to procure control and monitoring systems specific to the offshore industry.

Public Papers of the Presidents of the United States, Barack Obama Dec 06 2020
